**Will You Be Able To Wear The Bright Spring Colors?**

If you've been leafing through the latest women's magazines or if you've made a trip into town recently, you have probably noticed the colors being featured this spring — the vermillions, flamingos, and other flame-colored shades. You have probably been wondering to yourself, "How can I wear some of these brighter colors effectively?" Mary Em Lee, State College extension clothing specialist suggests choosing colors which relate to your own warmth or coolness of color.

If you have fairly warm coloring, the warm shades will be good for you—the yellow - oranges, the red-oranges, the yellow-greens. If, on the other hand, you are cool - skinned, delicate, blue-eyed, you will find the soft blues and greys more suitable. In choosing a hue, be certain to have a harmony of warmth or coolness between your own personal coloring and your costume.

Here's another color note to consider. Had you noticed how the blues and purple - blues all ways seem to be cool, but how there is a wide variety of warmth and coolness in reds? The red - oranges — like the new spring colors — are definitely warm; the blue-reds toward the cooler range? Greens can be either warm or cool depending upon the blue or yellow in the particular shade. The yellow makes a green warmer, a blue makes it cooler.

The best point to remember before buying new spring clothes is to consider your own coloring first. Then select a cooler which harmonizes with the warmth or coolness of your coloring, suggests Miss Lee.

**EASTER RANKS AS THIRD BIGGEST TURKEY DAY, WHY NOT SERVE TURKEY FOR YOUR BIG EASTER DINNER**

Did you know that Easter now ranks as the third biggest turkey day of the year? Easter time is turkey time, for all over America the turkey will be on parade. According to W. C. Mills, State College poultry specialist, turkeys are special bargains in your neighborhood meat market, and they come in most any size you want. There is a size for every oven, every pocketbook, every family.

One of the good features about today's turkey is its variety. The big, meaty, tender, young turkeys from 12 to 25 pounds are ideal for roasting — for that extra festive occasion. And the new - type small turkeys for medium - sized and small families are ideal for roasting, broiling, braising or frying.

With a plentiful supply of small fryer - roaster turkeys on the market this spring, what could be nicer than broiled turkey for your Easter dinner? Select the number of small fryer-roaster turkeys you'll need for dinner. They come in ready-to-cook sizes of from four to ten pounds. For broiling, slit the birds in half lengthwise and remove the neck, keel bone, and wing tips.

Place the turkey halves or quarters in a broiling pan which will help keep the meat "moist." Brush thoroughly with butter or other table fat. Season with salt and pepper. Flatten the halves with the skin side down. Place the pan in broiler so surface is seven to nine inches from the heating unit. Then broil slowly

for 40 to 45 minutes until bird is browned. Turn turkey so that the skin side is up and broil for an additional 30 to 40 minutes.

Because turkey is both economical and glamorous, it is becoming a year-round favorite. Whether you eat at home or in a restaurant, plan to eat turkey this Easter.

Fortune, Deaton wrecked his car about 1:10 Sunday morning on the El Bethel-Bethlehem road.
