"As you know, the Library drive carried with it a four-fold purpose. First, to emphasize the fact that books were needed, and needed badly; second, to ask only \$1.00 per person of the individuals that could be served by the Li brary; third, to inspire more interest in the library than has Belmont players, in addition to ball league, serving as statisticitory of Kings Mountain; and fourth, to ask for increased financial support both from the County and City, thus placing the library on a more self-supporting basis. "The whole · hearted support of these individuals was truly more wonderful and inspiring than anything this Committee has ever experienced. At the kickoff meeting last month, it was obvious that this group had long before caught the vision of just what it was we were trying to accomplish. So the verification of this fact strengthens our belief that complete understanding of peoples is absolutely essential be-fore we can properly exercise the word cooperation.

"And last but certainly not least, we are grateful for those club members who did cooperate, and for the citizens who gave so generously of their means. Although we are sure they want no thanks other than the feeling of deep satisfaction and peace of mind that are the just rewards of a job well done. And we therefore stand firm in our opinion that the spiritual value derived from this job does overshadow any disappointment that might have been that our goal of \$8,000 was not reached. After a careful analysis of this project, we would not, if given a choice, have it otherwise."
