

HERALD MYSTERY FARM NO. 9 — Can you identify the farm pictured above? If you can, you may be one of the four lucky persons receiving a free pass to Joy Theatre this week. Entries must be submitted — by phone or by mail — by 6 p. m. Friday. Names of persons correctly identifying the Mystery Farm operator will be placed in a hat for

the drawing. Names of winners will be published next week. The operator of the above farm is to supply positive identification and will be given a beautiful mounted 5x7 photograph of his farm, free of charge, when he visits the Herald office. (Photo by Zekan-Robbins Co., Harlan, Iowa.)

### CLARENCE LEDFORD WAS OPERATOR, OWNER OF NEWSPAPER'S MYSTERY FARM NO. 8

Clarence Ledford, Bethlehem community farmer, was identified by Herald readers last week as operator and owner of Mystery Farm No. 8.

Mr. Ledford identified his farm at the Herald office Friday morning and was pleased to receive the beautiful mounted 5x7 photograph of his farm, which is given to each farm operator free of charge.

The eight-acre farm is sowed and in pasture, Mr. Ledford reported, with the exception of a small garden. Mr. Ledford also reported that he had raised 30 pheasants and some quail. They also raise some chickens and have several cows.

The Ledfords purchased the lot and land six years ago from Mrs. Alice Herndon. Before building the new residence, which is locat-

ed on route two, off Grover road, they had lived on a farm in the Bethlehem section for 26 years. Both are Kings Mountain natives. Mr. Ledford was married in 1918 to Miss Eula Hayes. They have four sons, Ted, Gene, and C. T. Ledford, Jr., all of Kings Mountain, and Hayes Ledford, of Gastonia, and two daughters, Mrs. Harold Wells, of Kings Mountain and Mrs. Harward Eird, of High Point.

They are members of Bethlehem Baptist church. Both are employed at Margrace Mill.

#### METER RECEIPTS

Net receipts from the city's parking meters for the week ending October 20 at noon were \$170.81, as reported by Miss Grace Carpenter, of city clerk's office.

**Cows really go for this NEW FEED!**

Coarse textured... Extra palatable... Contains pellets, crimped oats! Economy priced!

**SPARTAN SPECIAL Dairy Feed**

Available in 16% & 20%

Cows love that extra coarseness, extra bulkiness... and pure good taste of new Spartan Special. They get all the valuable proteins, minerals and vitamins too, because all "fines" are in pellets. These feeds are built to produce...and priced to sell!

### Foote's Kings Mountain Expansion Completed; Lithium Output Gains

**DO IT NOW**  
A Feature on Gardening by the Kings Mountain Garden Club Council.

Now is an excellent time to start planning for next summer's garden. Begin right away to re-vamp your perennial borders. All perennials, except autumn flowering kinds, can be divided now. Take stock and plan for continuous bloom by adding a few new varieties next year.

Perhaps no other flower is better able to give a long-blooming period than the Hemerocallis, commonly called "day lily". It is not a new flower for Pliny, the great Roman botanist and naturalist, made reference to it in the first century, A. D.; but its popularity as a garden flower and the wide enthusiasm with which it is now acclaimed date back on-ly a few years. Translated from the Greek, Hemerocallis means literally, "beautiful for a day".

There are about 4000 varieties of daylilies in a wide range of color. They run in every possible shade of red, yellow, orange, rose, brown and the pastels. The flowering season has now been extended over a period of many months and the size of bloom has been increased greatly. Study your catalogs to decide which varieties you like best. Order now. Fall is an ideal time for planting.

In late October we must make ready for the winter months ahead. Tender perennials such as gerberas need protection. If mulches are used on columbines, foxgloves, English daisies and other crown plants, however, be sure to apply them on the side of the plant rather than over them. Do not mulch peonies. Feed calla lilies and cover the bed with leaves or straw.

Fancy-leaved caladiums have become a popular flower with us. Since they are a tropical plant their tender bulbs must be stored

PHILADELPHIA, PA. — One year after Foote Mineral Company's \$4,000,000 Sunbright, Virginia plant went "on stream", the company reports that the second wave of lithium expansion is nearing the tune up stage. Important industrial requirements have stepped up Foote's lithium hydroxide production schedules.

The Kings Mountain, North Carolina, spodumene mine and concentrating facilities have already been expanded and substantially higher production became effective October 1. Increased tonnages of spodumene concentrates are currently moving to Sunbright for extraction of lithium values urgently required.

The production of limestone, a basic process raw material from Foote's own mines at Sunbright, has already been upped to balance the flow of spodumene. With the integration of these new production schedules, Foote Mineral Company will improve its position as the first large scale producer of lithium chemicals.

Foote believes that, for the first time in several years, these latest expansions should insure a balance between supply and demand of lithium chemicals, officials of the company said.

In winter. As soon as their leaves begin to die decrease the amount of water given and gradually dry off completely. Bring them in before frost and store in a warm, dry place averaging 60 to 70 degree temperature. The bulbs can be left in the present container or stored in a shallow box of dry sand, peat or vermiculite. Tuberosus begonias, tuberosus and Peruvian lilies must also be stored in a warm place.

Set pansy plants where they have good soil and morning sun. Transplant perennial seedlings from your flats. Do plant at least one shade tree, preferably one of our beautiful native varieties as the poplar, sugar maple, oak, or pine.

BEGINS TRAINING — Pvt. Bob by Gene Moore, son of Mr. and Mrs. G. O. Moore of Kings Mountain, recently began eight weeks of Army basic training at Camp Gordon, Ga. His wife, Mrs. Mozelle Moore, is living in Bessemer City with her parents while her husband is in service.

#### BUILDING PERMITS

E. T. Platt was issued a building permit Oct. 18 by Building Inspector J. W. Webster to erect a one story house on property located on Second street, at an estimated cost of \$2,500.

ONE PIG TO BE GIVEN AWAY EACH WEEK

#### SEEDS:

OATS WHEAT  
BARLEY RYE  
Swift's "Red Steer" Fertilizer

#### DROUGHT RELIEF FEED:

Hay and Grain

Low... and behold!

# The motoramic Chevrolet for '55

Chevrolet and General Motors took a whole new look at the low-cost car—and just look what happened!

NOW BEING SHOWN!

The Bel Air Sport Coupe—one of 14 new Fisher Body beauties in three new series.

The valve-in-head V-8 as only the valve-in-head leader can build it!

# 8

Now Chevrolet, the leading builder of valve-in-head engines, introduces the "Turbo-Fire V8." It carries the V8 design to a new high in efficiency with its high horsepower (162), high-compression (8 to 1), high performance and surprisingly high gas mileage. Available with standard transmission, or with the extra-cost options of Overdrive or Powerglide.

# 6

You can choose from two new sixes, too!

Chevrolet also offers the last word in six-cylinder performance and economy! There's a new "Blue-Flame 136" teamed with Powerglide and a new "Blue-Flame 123" with either standard transmission or Overdrive.

Can't you tell just by looking that Chevrolet and General Motors have come up with a completely new idea about the low-priced car? The idea is this: to build a car that offers the very newest thing in styling, the most modern features, the finest kind of performance and the highest quality of manufacture—all at a modest price. It's something that took a lot of doing and that only the world's leading car builders could do. Everything's new in this Motoramic Chevrolet from its lower top right down to its tubeless tires. Come in for the most fascinating visit you ever made to an automobile showroom!

## The motoramic Chevrolet

More than a new car—a new concept of low-cost motoring!
