LET'S TALK IT OVER

By: Grace & Selma Someone once said, "In time of peace, prepare for war", which suggests that now might be the time to plan next summer's vacation.

The beach, the mountains, or a siege of plain old lazing around the house all stack up as downright pleasant vacation possibilities, but have you ever been intrigued by the thought of seeing some of the quaintly named communities whose names pop up now and then in news dispatches?

During the summer dog days one might spend a pleasurable few days in Cooler, S. C., or Chill, Wis. If these locales don't appeal, one might warm up to Frostproof, Fla.

The social lions might trek to Social Circle, Ga., or Breakfast Hill, N. H. June brides will love Kissimmee, Fla., or Bridal Veil, Ore. However, if your idea of a vacation is to crawl into the sack and let the rest of the world go by, we know the spots: Yawn, La., or Sleepy Eye, Minn.

If you think that these garden spots have nothing to offer, all we can say is Why not—that is spelled without a question mark and happens to be in North Carolina.

And Why not come to ALLEN'S FLOWER SHOP tomorrow... instead of waiting for a special occasion to bring FLOWERS home. The name ALLEN'S FLOWER SHOP is synonymous with GOOD FLORAL BUYS... so drop in at 624 East King Street tomorrow and brighten the life of your loved ones. (adv.)

Turkey Left-Overs Usable (No Joke!)

Nearly everyone looks forward to Thanksgiving dinner when he can enjoy the turkey with all the trimmings. However, few of us relish the idea of finishing up the bird once the big meal is over.

Is there anything you can do to make turkey left-overs more attractive? According to Virginia Wilson, State College nutritionist, there is. She says that there are a number of ways in which turkey left-overs can be used to add variety to your menu. Cook frozen broccoli for about one minute, drain and place in a baking dish. Cover with chopped turkey, chive sauce and crumbs. Brown in a moderate oven for about ten minutes.

Another turkey dish that Miss Wilson suggests is made by cooking noodles or spaghetti in turkey broth. If you don't have broth, you can easily make it by cooking the turkey bones in water for about 20 to 25 minutes.

After cooking the noodles or spaghetti in the broth, place in a baking dish with chopped turkey and cover with a cheese sauce. To add variety, you might want to add some chopped mushrooms or blanched almonds—or perhaps a little of both. Miss Wilson says that if she really wants to give the dish a special touch, she adds just a few ripe olives. Bake the casserole in a slow oven for about 10 or 12 minutes.

Using up the Thanksgiving turkey need not be a problem. There are a number of interesting combinations that can be made using your Thanksgiving turkey as a basis. Many of these dishes use the bird so subtly that your family won't realize they're still eating the "piece de resistance" of the Thanksgiving dinner.

A SWITCH OF THE PITCH -AND AWAY YOU GO! The biggest sensation in years is what "variable pitch propellers" have done for Dynaflo Drive! IT happens like this. You need pickup—and pronto. So you get it. You get it by pushing the accelerator pedal of a 1955 Buick all the way to the floor board. Then—without jerk or lag or lurch or pause—you get action! You get action whether you're just starting off—or asking for a safety-surge of power out on the highway. There's nothing like it in past experience—because there has never been anything like it in an automobile before. This is action that comes from the principle of variable pitch propellers used on modern planes. Their propeller blades change "pitch" for take-off—and cut hundreds of feet off the time required to lift a plane from a runway. And the amazing fact is—in a 1955 Buick Dynaflo Drive there are 20 little propeller-like blades that also change their pitch, just like the propeller blades of a plane. This is a transmission engineer's dream of heaven. A build-up of momentum as smooth as flowing oil—and almost as quick as lightning—plus better gas mileage in cruising range. It's what the whole automobile industry has been shooting for—and Buick has it. So, that means there's only one thing for you to do. Try out a 1955 Buick, and soon. Try it out for quick action, as we've mentioned. Try it out for room and comfort and ride. And by all means, cast an admiring eye on its style—for it beats the high-fashion Buicks which set the pattern in the successful year just ended. We're waiting and eager to hear from you soon. So drop in—or give us a call. We promise you a thrill that no other car can deliver. *Standard on Roadmaster, optional at extra cost on other Series.
