Irrigation Ups Farm Output

Drainage and irrigation are often overlooked as important contributors to the remarkable increase in total United States farm output.

U. S. Department of Agriculture officials say that an expansion of nearly one-third in the total farm product since 1940 has been attributed largely to increased mechanization, more fertilization, better control of insects and plant diseases, and use of improved seeds and better livestock.

Officials point out that drainage and irrigation have also played a new convertible.

Many colorfully decorated floats and a Santa Claus float bringing up the rear will be in the mile long parade.

Cherryville Yule Parade Is Thursday

CHERRYVILLE — The Christmas Parade to be held in Cherryville on Thursday afternoon, December 2nd, at 4 o'clock, sponsored by the Cherryville Merchants Association will be one of the most elaborate in the history of Cherryville.

The Christmas lights will be turned on for the first time and will illuminate the town for the event. Santa Claus will be the main feature of the parade and the Christmas shopping season will be officially opened in Cherryville. The merchants have spared no time or effort in getting their Christmas merchandise on display and decorating their store windows for the parade.

Town officials have had a crew of men stringing the street lights and putting up decorations for the past three weeks. The job has been completed, tested and ready for the parade.

Forty-five units have already been entered and four outside school bands, including Dallas High School, Bessemer City High School, and the Lincolnton High School bands will be in the parade, also the Cherryville High School band and the Junior band will take part. Queens from all nearby schools including the Cherryville High School, the Cherryville Princess in the Carrousel Parade and the queen elected by the Lions Club to represent the merchants will each ride
