**Social Security To Include New Groups In 1955**

About 100,000 engineers, accountants, architects, and funeral directors who have their own businesses, as sole owners or in a partnership, will be brought under the social security program for the first time after 1954, according to Joseph P. Walsh, district manager of the Gastonia Social Security office.

They will come under the law on a compulsory basis and they will begin to earn old-age and survivors insurance for themselves and their dependents in the same way as self-employed persons in commerce and industry have since 1951. "Not included under the 1954 Amendments to the Social Security Act," Walsh said, "are lawyers, dentists, physicians, and men and women who are self-employed in other professional medical capacities, such as optometrists, veterinarians, chiropractors, and osteopaths."

Average prices paid by Tar Heel farmers for most feed items declined or remained unchanged during the month ended, October 15, with all mixed dairy feed prices dropping five per cent per hundred.
