VA Questions And Answers

EDITOR'S NOTE: Below are authoritative answers by the Veterans Administration to some of the many current questions from former servicemen and their families. Further information on veterans benefits may be obtained at any VA office.

Q—I was discharged in 1960 after five years service. Is it true that GI Insurance may now be available to me?

A—The re-opening of National Service Life Insurance for a year beginning May 1, 1965, applies to disabled veterans who were originally eligible for insurance after October 7, 1940, and before January 1, 1957. You should check with the nearest VA office to see if you are eligible.

Q—Is a down payment required on a GI home loan?

A—Not as a matter of law, but the lender may request a down payment as dictated by policy, and such factors as the veteran's income and other indebtedness.

Q—My father is service-connected for gastritis. This condition has been rated by the Veterans Administration at 60 percent disabled for several years. It does, however, prevent him from being employable. Am I eligible for the educational allowance for children of disabled veterans?

A—No. The veteran must be rated by the VA as permanently and totally disabled. However, since you indicate that your father is unemployable, he should submit proof of this fact and request that his claim be reopened. If he should be rated 100 percent disabled based on individual unemployability because of his disability, you might be eligible.

Q—Should the ministers desiring coverage contact the social security office or Internal Revenue?

A—They could get the waiver form from Internal Revenue or from our office. It is quite probable most of them would like to

and SOCIAL SECURITY

Q—Most people assumed the earnings of ministers were all covered by social security. Now I understand ministers could come under social security if they wish to do?

A—No, not exactly. They do have until April 15, 1965.

Q—What would a minister have to do if he decided he wanted to be under social security?

A—He would have to file a waiver certificate. It is a 3-part form and the number is 2031. He would complete the form and send all copies to the Director of Internal Revenue. The Director would stamp one copy and return it to the minister. He should keep that stamped copy in a safe place. That will be all he has to show he applied for coverage at the proper time.

Q—If a minister I'd like to know about. Ministers usually get a salary. What connection will the church have with his election of coverage?

A—None. For social security purposes ministers are considered self-employed.

Q—If a minister elects to be covered and files the waiver form 2031 by April 15th will he pay the self-employment tax on his 1964 earnings?

A—Yes, he will. The effective date of the waiver will be the first taxable year ending after 1961. For most this would mean paying the self-employment tax on 1962 and 1963 earnings as well.

Q—Should the ministers desiring coverage contact the social security office or Internal Revenue?

A—They could get the waiver form from Internal Revenue or from our office. It is quite probable most of them would like to

MEMO TO ADVERTISERS

Q. What are the 3 most important rules for profitable newspaper advertising?

A. 1. Your advertising message should be newsy, friendly, informative, easy to read. Give facts and news about your merchandise and service. 2. Advertise regularly. Make your advertising do what successful salesmen do—call on customers and prospects consistently. 3. Insist on audited circulation reports that give you the FACTS about the audience that your sales messages will have when you buy newspaper advertising.

Q. Is there a measure for the value of newspaper circulation to an advertiser such as the standards a merchant uses in buying merchandise—for example, like STERLING on silver?

A. Yes—in the well known circulation standards of the AUDIT BUREAU OF CIRCULATIONS.

Q. What is the A.B.C.?

A. The A.B.C. is a cooperative, non-profit association of 3,450 advertisers, advertising agencies and publishers in the United States and Canada. Organized in 1914. Brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

Q. What does A.B.C. do for me?

A. At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of the circulation records of each publisher member. The results of each audit are published in an easy-to-read A.B.C. report for your use and protection when you buy newspaper advertising.

Q. What are the FACTS in A.B.C. reports?

A. A.B.C. reports tell you how much circulation, where it goes, how obtained and other FACTS that help you buy advertising as you would make any sound business investment—on the basis of known values and audited information.

Q. Are all publications eligible for A.B.C. membership?

A. No. Only those with paid circulation. This is important to advertisers because it is evidence that the paper is wanted and read.

Q. Is this newspaper a member of the Audit Bureau of Circulations?

A. Yes. We are proud of our circulation. We want you to know the FACTS about the audience your selling messages will have when they appear in these pages. Ask for a copy of our latest A.B.C. report.
