Bell Signs New Agreement

The Southern Bell Telephone Company and the Communications Workers of America, in collective bargaining begun October 18, signed an agreement Friday morning on wage changes affecting 60,000 non-supervisory employees in nine states.

The agreement, subject to Union membership ratification, includes a general wage increase ranging from \$2.09 to \$4.50 a week, depending on job and town classification of the employee. In addition, certain jobs were upgraded and a number of towns reclassified to higher wage zones.

The annual cost of the wage-level increase and other contract changes to Southern Bell in North Carolina will be approximately \$1,600,000. Company officials said. Annual cost in the nine Southern Bell states will total about \$16,000,000.

Personnel Vice-President W. A. Thompson said, "Our studies made recently of wages in the area we serve showed increases to be justified. They are also in the interest of the best service to the public since it is essential to have the services of well-qualified employees."

There are approximately 541 non-supervisory employees in Southern Bell in the Gaston District. North Carolina has approximately 5900 non-supervisory employees said C. E. Tally, Gastonia District Manager.

States served by Southern Bell are Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee.

Now! '66 Chevelle Malibu by Chevrolet

Two racy new hardtops

A clean-sculptured new sport coupe with recessed rear window, and—for the first time—a 4-door Chevelle Sport Sedan. Pick from 12 racy-looking new Chevilles in all for '66.

Not only will you find more variety in the '66 Chevelle lineup, but even more of what makes a Chevelle a Chevelle.

Say you pick a new Malibu Sport Sedan and specify the new 220-hp V8. You've got yourself quite a machine.

Or pick a Malibu Sport Coupe, equip it with the new Strato-bucket front seats, and order the new 275-hp V8. You've got yourself even more machine.

Or maybe you'd like to pick a new black-grilled SS 396 Coupe or Convertible. (Standard engine is a Turbo-Jet 396 V8 with 325 hp. And there's also a 360-hp version you can specify.) Now you've got yourself the most.

Which '66 Chevelle for you? The answer to that covers a lot more ground than we can here. And that's where your Chevrolet dealer comes in.
