**SITTING PRETTY . . .** It's plain to see that Marianna Hill has lovely eyes as she poses prettily between scenes. "Red Line 7000" is a drama about three girls in love with race car drivers. Directed and produced by Howard Hawks and filmed in Technicolor, the Paramount picture opens Wed. at the Shelby Skyvue Drive-In Theatre. Gail Hire, James Ward, Laura Devon, John Robert Crawford and Norman Aiden head the youthful starring cast.

**Top Racing Driver Films Sequences**

Producer-director Howard Hawks has something new in the way of scene stealers in his exciting new Paramount Picture in Technicolor, "Red Line 7000," opening Wednesday at the Shelby Skyvue Drive-In Theatre. They are American stock cars, built for racing and capable of scorching around a track at more than 170 miles an hour.

The man in charge of these rip-snorters is Bruce Kessler, at one time among the country's top-ranking race drivers and the second unit director of "Red Line 7000." Kessler's job is to film scenes of actual races for Hawks' drama about the girls who are in love with stock car drivers. The girls are played by Gail Hire, Laura Devon and Marianna Hill; the racers by James Ward, John Robert Crawford and James Caan.

This program has been in existence in North Carolina since 1956.

**Police Report Four Accidents**

Kings Mountain police investigated four minor traffic accidents during the past week.

The first occurred Saturday night at 8:05 at the intersection of Highway 216 and Waco road. Brenda Owens Hoyle, 18, of route 1, was charged with failure to yield right of way when she pulled into the path of a car operated by Phillip Terry Leonard, 19, of 160 West King street.

Damage to Leonard's 1964 Oldsmobile was estimated at \$200 and damages to Mrs. Hoyle's 1961 Falcon were listed at \$75. Officers Bob Hayes and B. P. Cook investigated.

Dean Vernon Yates, Sr., of Rutherfordton was charged with speeding 50 in a 35 zone and a stop light violation following a Monday night accident involving his 1960 GMC truck and a 1958 model Chevrolet driven by David Phillip Whitley of Grover.

Investigating officers Bob Hayes and Ernest Beam report that Yates was traveling at a high rate of speed, ran the red light at the intersection and struck Whitley's car on the right side.

Damages were listed at \$10 to the truck and \$250 to Whitley's vehicle.

A 7:30 p.m. Tuesday accident caused \$75 in damages to a 1955 Chevrolet driven by Mrs. Helen Tidwell McGinnis of 202 South Sims Street. Mrs. McGinnis said that she was blinded by the lights of an oncoming car and lost control of her vehicle.

The one-car mishap occurred at the intersection of U. S. Highway 74 and Watterson street. Officers Cook and Hayes investigated.

A Wednesday afternoon accident at the intersection of Highway 74 and Gaston Street caused damages amounting to \$200 to a 1962 Chevrolet and \$75 to a 1961 Dodge.

The Dodge, driven by Alvin Herman Rhyme of Bessemer City, was stopped at a red light when struck in the rear by the '62 Chevy driven by Otis Cleo Falls, Sr., of 113 West King Street, Kings Mountain.

**Fall Sampling Is Urged**

County Extension Chairman H. R. Clapp recently received information on the number of soil samples received and analyzed for each month of the 1964-65 fiscal year. The inflow of samples is much greater during the months of January, February and March. Maximum monthly output by the laboratory is about 15,000 samples. The lab operates at maximum capacity only three months of the year.

Mr. Clapp points out that many more samples could be analyzed during fall months resulting in more rapid service on a greater number of samples. In addition to this advantage, farmers would avoid the rainy weather that frequently occurs during the winter months which makes soil sampling an unpleasant task. Our fall season, on the other hand, are commonly open and pleasant. Soil samples

can be taken more rapidly and comfortably under such conditions.

Another factor in favor of fall sampling is that the soil is in good condition for the application of lime if it is needed. All of us have seen how bulk lime spreaders can mire down in wet soils. Lime that is applied in the fall has plenty of time to react with soil acidity and reduce it for the next year's crop.

Mr. Clapp also indicates that a farm is a busy place in the spring and not so busy in the fall; just another reason for getting soil tested and any needed liming done in the fall.
