

COMPLETES BASIC — A/3C Kenneth Wayne Dellinger, son of Mr. and Mrs. Tom Dellinger of Kings Mountain, has completed basic training at Lackland AFB in San Antonio, Texas and has been assigned to Walker AFB in Roswell, New Mexico. Airman Dellinger's address: AF 1492304 CMS 306-6 Trans. Squadron Walker AFB, Roswell, New Mexico.

BETHWARE OAK GROVE NEWS

By Mrs. Ruth Vess Phone 739-5035

Rev. and Mrs. Dale Thornburg, Mike, Chris and Susan of Le noir, visited Mrs. Thornburg's mother, Mrs. J. T. Barber last week.

The following people joined Oak Grove Baptist church recently: Mr. and Mrs. Edward Taylor by letter and Mr. Carl Trackett for Baptism. There will be a Baptismal service at the church Sunday at the Morning worship service.

Rev. and Mrs. Dale Thornburg, Miss Thelma Thornburg and Mr. and Mrs. J. T. Barber visited Mr. and Mrs. Frank Thornburg at Fairforest, S. C. last week.

Mr. Melvin Barber, Melvin, Jr. and Steve of Columbia, S. C. visited Mr. J. T. Barber Sunday.

Among those from the community who are patients at Kings Mountain hospital this week are: Mrs. Zay Moore and Walter Vess, Sr. Mrs. T. A. Champion fell at Oak Grove church Sunday and

injured her hip and ankle. She is confined to her home. Those visiting her Sunday were: Mrs. Annie Barnes of Grover, and Mr. and Mrs. C. Neal Porter of Shelby.

Mrs. Keever Hamrick, Phyllis and Wanda visited Mr. and Mrs. Walter Vess, Sr. Sunday afternoon.

Mrs. Dale Harmon took Mr. and Mrs. Glenn Lovelace and Mrs. Eugene Lovelace to visit Pvt. Eugene Lovelace at Fort Gordon, Augusta, Ga. Sunday.

Visitors in the home of Mr. and Mrs. Fred Green Sunday were: Mr. and Mrs. J. Fred Ross of Fort Mill, S. C. and Mr. and Mrs. Emmett Green and daughter

BREAD IN VIET NAM

Homemade bread is baking in Saigon, South Viet Nam, thanks to a wise homemaker, the Mecklenburg County Home Demonstration Club cookbook, and an alert extension agent.

Several weeks ago, a homemaker called the Extension office. She reported her daughter, a government worker in Saigon, was trying to bake bread. But it wouldn't raise. Mrs. Margaret Tyson, assistant home economics extension agent, gave her several reasons for the failure.

Three weeks later the mother called again. She said her daughter had been adding hot water, rather than warm water, to the yeast. Now, she reports, daughter and bread are both doing fine.

TO GOOD HEALTH Good health is an important asset to everyone, Home Demon-

stration Club members in Wilkes County, realize. So these ladies are taking steps to make other Wilkes Countians health-conscious in 1966.

Members will give educational materials to the people of the county, urging them to have physical checkups, especially for cancer.

Other contributions made by the women include these: helping staff the county cancer clinic seven months a year, helping with the Crippled clinic, and working at the bloodmobile from September through May.

INCREASE VALUE Make a shrewd purchase and add a bit of hard work. The result—an object that is five times more valuable than when you bought it. Here's the story.

Mrs. E. L. Jenkins, Northampton County, bought a second-hand chest of drawers for \$25 and asked the extension home economist for instructions on cleaning and refinishing it. When she's through, the chest Mrs. Jenkins bought for \$25 will be

worth at least \$125.

DEVELOP PICNIC AREA Tourists stopping for picnics along the roadside of highway 74 in Columbus County, were leaving the area littered. Members of the Evergreen Home Demonstration Club decided to do something about these litterbugs. Mrs. Elaine Blake, home economics extension agent, reports.

Mrs. Duval Inman and Mrs. Jack Britt, co-chairman of the project, looked for a spot that would make a lovely picnic area. Mrs. J. C. Parkin leased the chosen land to the state and the state highway department furnished a picnic table and trash collection barrels.

The picnic area became so popular, people often had to wait for tables. The homemakers are now thinking of buying an additional picnic table and water pump.

SEWING SPECIAL FABRICS Today's fabric textures run the gamut from smooth pure silk to bulky mohair and nubby or slubbed handmade yarns. Home Demonstration Club members in

Avery County, have been learning how to sew on these special fabrics.

Marie Scott, home economics extension agent, says the lesson included pattern selection, sewing machine adjustments, cutting and marking, and seam finishes.

COIN-OPERATED DRYCLEANING Coin-operated drycleaning has become big business the past couple of years. So Home Demonstration Club members in Vance County are learning to cope with the ins and outs of coin-operated cleaning.

Among the tips they've received are these: Separate dark-colored items from light-colored ones and you can avoid lint collection during cleaning. Or you can turn garments inside out to keep the right side lint free.

Remove fancy buttons or ornaments; close zippers, and fasten hooks so they won't catch on other articles. Take along enough hangers to hang up all garments as soon as you take them from the machine.

Green Promoted To Specialist Four

U. S. ARMY VIETNAM (AH-TNC) — Charles G. Green, 23, of Mr. and Mrs. G. T. Green, Route 1, Bessemer City, N. C., was promoted to specialist four Dec. 23 in Vietnam where he is serving with the 334th Transportation Battalion.

Specialist four is an enlisted rank equivalent to the rank of corporal.

Specialist Green, a clerk in the battalion's 119th Transportation Company, entered the Army in October 1964 and received basic training at Fort Jackson, S. C. He arrived overseas in August 1965.

Green was graduated from Dallas high school in 1960 and was employed by Talon, Inc., Stanley, before entering the Army.

State-Wide Vehicle Safety Begins Feb. 16

RALEIGH — The statewide "Vehicle Safety Inspection Program," a major part of Governor Dan Moore's effort to curtail the surging traffic accident toll in North Carolina, will get underway on February 16.

Governor Moore said more than 2,400 service stations and garages throughout the state have been licensed to conduct the vehicle inspection.

The Safety Inspection Program, authorized by the 1965 General Assembly, is intended to rid the highways of unsafe vehicles. Defective safety equipment has been shown to be a frequent cause of traffic accidents.

"We are convinced this program, by removing from our highways the serious hazard of unsafe vehicles, can help to control traffic deaths and accidents in North Carolina," the governor said. "Safety Inspection is for the benefit and protection of every motorist in our State."

Stations licensed to conduct vehicle safety inspections will be recognized by the green and white "Official North Carolina Safety Equipment Inspection Station" sign that will be prominently displayed at each licensed station. Authorized mechanics will inspect only those items necessary to the safe operation of the vehicle—brakes, lights, steering mechanism, horn, windshield wipers and directional signals.

"The Safety Inspection Program is geared to the convenience of the motorists," Governor Moore explained. "In most cases, the licensed station is a neighborhood firm where the motorist is already receiving service."

He said inspection of the six safety items will require only about 20 minutes. Defects may be corrected during the inspection, the governor said.

The date by which a vehicle must be inspected is determined by the last number on the vehicle's license plate. The schedule follows:

Table with 2 columns: License plate number, Inspection date. Rows include 3 (March 31, 1966), 4 (April 30, 1966), 5 (May 31, 1966), 6 (June 30, 1966), 7 (July 31, 1966), 8 (August 31, 1966), 9 (September 30, 1966), 0 (October 31, 1966), 1 (November 30, 1966), 2 (December 31, 1966).

He pointed out that disapproved vehicles will be entitled to re-inspection, free of charge, provided it is conducted by the initial inspection station and within 90 days of the initial inspection.
