

Sky-Vue Showing "Thunderball"; James Bond Film

"Thunderball", starring Sean Connery as James Bond, opened Wednesday at Shelby's Sky-Vue Drive-In Theatre for the first showing in this area.

The film, acclaimed as "the biggest Bond of all" is the latest Agent 007 screen adventure thriller and the most ambitious and lavishly mounted of all the Bond films presented by Albert R. Broccoli and Harry Saltzman for United Artists release.

In Panavision and Technicolor, "Thunderball" features Claudine Auger, Adolfo Celli and Luciana Paluzzi. It was directed by Terence Young who also directed "T.M. No." and "From Russia With Love", the first two films in

this series.

Principle photography began at Pinewood Studios in England, after which the 82-man British production unit flew to Nassau where extensive filming was done in and around the luxury hotels and beach clubs of the Bahamas and the colorful outdoor settings of the Out Islands. A great deal of the action (including a love scene!) takes place underwater. For these submerged sets, and those above the sea, production designer Ken Adam was given a blank check to create the kind of fantastic props the Bond films are noted for. Properly primed with this benevolent budget, Adam came up with

a giant hydrofoil that skims across the ocean at 95 miles per hour, rocket-firing motor bikes, a two-man diving bell that operates at 15 fathoms, huge underwater sleds capable of transporting 20 megaton H-bombs and a recently developed land-to-air rescue device that snatches a man aloft at 180 miles per hour.

One old prop returns in "Thunderball". It is Bond's now famous Aston Martin DB 5, introduced in "Goldfinger." This \$45,000 sports car is loaded with special equipment, including twin Browning machine guns mounted behind the parking lights; front and rear bumper over-riders which extend as ramming de-

Causby Wins Army Medal

WICHITA, Kan. — Master Sergeant Jimmy R. Causby, son of Mrs. B. M. Causby of 602 E. Virginia Ave., Bessemer City, N. C., has been awarded the U. S. Air Force Commendation Medal at Wicks; tire-slashers, which extend from the rear wheels; front and rear license plates, which revolve to show British, French and Swiss registration numbers; a special radio telephone; a radar screen; an armory compartment under the front seat; an ejector seat for unwanted passengers... and retractable bullet-proof shields.

McConnell AFB, Kan. Sergeant Causby received the medal for meritorious service at Mountain Home AFB, Idaho.

The sergeant, a nuclear weapons technician, is assigned to McConnell as a member of the Strategic Air Command which maintains America's constantly alert force of intercontinental missiles and jet bombers.
