Savings Bonds Interest Up

United States Savings Bonds are now a more attractive investment than ever before. **George Blanton, Jr.**, Volunteer Chairman of the Savings Bonds Program in Cleveland County, said today in commenting on the increase in interest paid on Series E and H Bonds to 4.15 percent.

Mr. Blanton pointed out that the new rate applies from December 1, 1965, to all Savings Bonds, old and new, and will automatically increase their earnings.

In announcing this new interest rate, President Johnson said, "The Savings Bonds Program is both prudent and patriotic. It is prudent because it strengthens the security of your own family. It is patriotic because it strengthens the economy of our country, it supports our fighting men in Vietnam who need to be supported at this very hour, and it supports the cause of our freedom everywhere in the world. It helps to preserve the buying power of our American dollars."

"And for all of these reasons, I believe that savings bonds are the most important investment that any American can make. I urge you to invest regularly through the Payroll Savings Plan at your office, your factory, or your bank."
