E Bell Announces

New Techniques A new era in worldwide weather forecasting is here, the result of a remarkable partnership between space technology and modern data communications. Employing weather-watching satellites 750 miles above the earth, will enable meteorologists to anticipate storms many days in advance. Precise pictures of cloud formations are already being used to pinpoint the arrival of weather fronts and report their progress as they move around the world. With the help of data flashed across a special weather communications network, receiving stations at airports, cities and coastal locations can be aligned to pick up weather information directly from satellites as they pass overhead, said R. B. Moore, local telephone manager.

Liberty Life Has Passed \$2 Billion Mark GREENVILLE, S. C. — Liberty Life Insurance Company has passed the \$2 billion life insurance in force mark, capping four years of record expansion, Francis M. Hipp, chairman and president, announced today. Since 1962, the company has added more than \$500 million to its insurance in force. The company has doubled in size, based on insurance in force, in the nine years since 1957. Liberty Life currently ranks 41st among the 1600 stock life insurance companies in the United States. Commenting upon passing the milestone of \$2 billion in force, Mr. Hipp stated that, "Every indication points to the continued acceleration of the company's growth in the years immediately ahead. Today our Southern territory is experiencing an economic boom in excess of other regions of the country, and I believe that Liberty's position in this market will enhance its future far above the levels that might normally be expected." Pointing to the extremely rapid industrialization, the 20 per cent jump in employment within the last decade, growth of disposable income and expansion of the "young married" market that serves, Mr. Hipp stated that "Liberty Life is already beginning to greatly benefit from these factors which are inherent in its principal operating area." Liberty writes all forms of individual and group life, accident and health insurance and is strongly entrenched in the industrial, or weekly and monthly debit life insurance market. In addition, the company writes substantial amounts of group credit life insurance and individual borrower's insurance which is savings and loan associations in the Southeast. Mr. Hipp noted that Liberty Life plans to continue to channel a substantial portion of its investments into the Southeast in full support of the economic expansion and development of the company's primary business region. Founded 60 years ago Liberty Life has a history of profitable and steady growth, achieved primarily in its home State of South Carolina and the neighboring states of the Southeast.
