### First Bowling Team Formed In 1955

The very first Kings Mountain Men's Duckpin Bowling League was organized in 1955 with some of the same stars bowling back then.

But you never heard of a 400 set being bowled. In 1955 if a bowler rolled a 135 or 140 line and a 325 or 330 set he could say that he had a good night.

Nowadays, 400 sets are hard to come by but a bowler still doesn't get as much recognition as he would have if he got, say a 360, in '55.

It's hard enough for a man to roll a 400 set but when a lady accomplishes the feat, well . . .

The 1965-66 bowling season has been long and I suppose most of the bowlers are happy to retire for a couple of months and take up golf or some other outside sport.

But this past season has been a very successful one for the Kings Mountain leagues.

Let's just hope that next season will bring many more 400 sets and some more broken records.

### Horn Heads Library Group

Shelby Attorney Charles A. Horn was elected president of the newly formed Friends of Cleveland Memorial Library at last week's organizational meeting in Shelby.

The slate of 15 officers and directors also includes Mrs. W. L. Mauney of Kings Mountain, first vice-president; Mrs. William Russell, three-year director; and Mrs. James Scruggs of Grover, one-year director.

The library group officers will head up a campaign to secure new quarters for the library, larger book inventories and more library personnel.

All county civic groups were urged to begin seeking additional "Friends" at a membership fee of at least \$1 per adult and 25 cents for children.

The "Friends" present in Cleveland County Courthouse included some 150 persons who voted unanimously for the slate

of officers and for a proposed constitution.

Lloyd Bost, chairman of the Cleveland County Memorial Library Board, and Grady K. Howard, chairman of the Jacob S. Mauney Memorial Library Board, Kings Mountain, pledged the support of their respective boards to the efforts of the organization.

### Boy Scout News

The 1966 Camporee was held April 29-May 1. The several events included: compass, signaling, measuring distance, fire by friction and nature.

Leaders for Troop 90 were Scoutmaster Henry McKelvie; Junior Assistant Scoutmaster J. C. Wright; Senior Patrol leader Hugh Logan, III; Patrol leader Carl Fulton and Assistant Patrol leader Dean Martin.

### Deaths Climb To New High

RALEIGH — The deaths of 35 persons killed on North Carolina roads and streets were reported to the Department of Motor Vehicles Accident Records Unit during the week ended Sunday, May 8 at midnight. The 35 included eleven deaths resulting from traffic accidents which occurred prior to this week.

The death toll stands at 520 as of midnight Sunday.

Eleven of the dead were pedestrians—four under school age and four in their seventies.

Seven deaths resulted from failing to yield right-of-way, two from driving on the wrong side of the road (not passing) and one from an improper turn.

Twelve persons died in one-car accidents with no other moving object involved. It was noted by the Department of Motor Vehicles Analyst that six of these accidents were not severe enough to have caused death if the person killed had been held in place in the vehicle by a seat belt.

The analyst pointed out that traffic deaths over the weekend were below normal, with seven reported. Sixteen fatalities over a weekend are considered normal.

J. C. Wright topped all others in "fire by friction" event. In less than two minutes he completed the event. Transportation was provided by Mr. and Mrs. Hugh A. Logan, Jr. and J. C. Wright.

### COMEDY CORNER

"The reports are coming in more accurately since we put that dummy at the entrance!"

### Average Motorist Is Litterbug

The average motorist while he's at home, where the neighbors are watching, wouldn't leave trash on his front lawn. But put him in his car, head him toward a weekend travel, and he's too often tempted to discard travel trash wherever it's handy—mainly on the road and shoulders.

That, in effect, said highway patrol officials is a capsule description of the Tar Heel litterbug. But he's learning, they added.

Troopers in March arrested 69 trash tossers, bringing the year's litterbug tally to 174. They nabbed 52 in January and 53 in February. Officials continued their hope that eventually careless littering would be replaced with good habits of pride in clean, safe and scenic surroundings.

"This attitude would be far more effective than arrests," a spokesman declared. "What is needed is a renewed sense of responsibility to really try to keep North Carolina clean and beautiful."

### and SOCIAL SECURITY

Q—If I take reduced widow's benefits at age 60, will it be increased to the full rate when I reach 62?

A—No. The amount of your benefit will remain the same, unless you did not receive benefits for all months before you are 62. In this case, your benefit will be adjusted at 62 to take these months into account.

Q—I am 68 years old and have been receiving social security for several years. Because of an injury I had to quit my part-time job. Can I receive disability benefits?

A—No. Disability insurance benefits are not paid after 65.

Q—Is my 63-year-old mother, who receives wife's benefits eligible for hospital insurance benefits?

A—No. Hospital insurance benefits start at 65.

Q—Has a law been passed that would let a woman get social security at 60?

A—A woman can qualify for a reduced widow's benefit at 60. However, she would have to be 62 to qualify on her own work record or as a wife who has no children.

Q—I am a 56-year-old widow, under a doctor's care, and unable to work. I did not work under social security long enough to qual-

ify for disability benefits. Can I receive my widow's benefits now?

A—No. You do not have children under age 18 in your care who are eligible for benefits. Therefore, you must wait until you are 62 for a widow's benefit (or 60 for a reduced benefit).

The new C-54 transport jet to be built will be as long as a 23 story building, as high as a six story structure and have a wing span equivalent to 22 stories.

#### A NEW MOOD IN FURNITURE

There's a trend taking place in the furniture business that cannot be called a new style. It is simply a new mood. And that new mood, for lack of a better name, is being called the "massive look".

This doesn't mean you should throw out your old furniture to follow this new trend. First of all, it doesn't apply to everyone and to every home. You may not even like it. But it's becoming a sufficiently important trend that we must report it to you.

Furthermore, the massive look applies usually only to large rooms so even though you like the idea you may not be able to use it.

This new furniture mood is expressed in many ways and one might say in "big" ways such as larger, loungier and more comfortable sofas and chairs, and who can object to more comfort?

In bedroom furniture this look is often expressed by using fewer and larger pieces. Rooms that ordinarily took a bed, chest and dresser may use a larger bed and huge dresser, leaving out the chest.

This mood is also reflected in the upsurge in popularity of large patterns in upholstery fabrics, carpets and wall papers. It is particularly useful and applicable where contrast is needed.

It is seen in the greater popularity of large footstools and ottomans, in the use of larger pictures, wall plaques and other wall decor.
