

**TO SPEAK HERE — Rev. Roy Copelin will speak at services Tuesday night at 7 o'clock at First Church of the Nazarene.**

### Rev. Copelin To Speak Here

Rev. and Mrs. Roy Copelin, missionaries to the Republic of the Philippines, are on furlough in the United States. They will speak at Kings Mountain Church of the Nazarene Tuesday night at 7 p.m.

This is their second furlough since being assigned to the Philippine Islands in 1954 by the Church of the Nazarene.

During his first term of service, Rev. Copelin was assigned to Manila which is the capitol of the Republic. While in Manila he was involved with intensive language study and assisting in the opening of the Nazarene work in that city. He also helped in any building programs on the field.

In 1955 Rev. Copelin was placed as president of the Nazarene Bible College which is located in Baguio City and served in that capacity until 1963 when he was elected Field Superintendent.

The missionary service will feature the work of the Church of the Nazarene in the Philippine Islands. There will be colored slides where desired.

Rev. Copelin was born in Illinois. He graduated from Pasadena College, Pasadena, California in 1947 and the Nazarene Theological Seminary, Kansas City, Missouri in 1953. Prior to his assignment overseas Rev. Copelin pastored the Hillsboro, North Dakota and the Crescent City, California Churches of the Nazarene.

Rev. and Mrs. Copelin have three children, one boy and two girls, ranging in age from 19 to 8 years. They will be living in California during their furlough year.

### Burlington Announces Wage Hike

Greensboro, N. C. — Wage increases are being announced by many divisions of Burlington Industries, according to a statement today by President Charles F. Myers, Jr.

He said that amounts and effective dates would be established by management of Burlington's decentralized divisions, in keeping with the particular business situation in each type of operation. The Company, largest an most diversified textile manufacturer, has 120 plants in 15 states.

Mr. Myers indicated that some operations would make no increase at this time, as upward adjustments had been made in the last several months.

"Our policy continues to be one of maintaining wage rates on a divisional basis," Mr. Myers said. "In this way wages are related to the competitive situation in each specific segment of our business."

London's population is now eight million.

### Lutherans Adopt Record Budget

HICKORY — Delegates to the annual convention of the North Carolina Synod of the Lutheran Church in America here today adopted a \$1,246,000 budget for 1967.

The new budget is 3.3 per cent higher than the synod's current fiscal program. The increase will exceed \$40,000.

More than one-half of the 1967 budget is designated for support of the work of the national church body, the Lutheran Church in America, with headquarters in New York City. The national church will receive \$660,000.

Institutions supported by the synod will receive \$299,000. The institutions include Lenoir Rhyne College and North Carolina Lutheran Homes here in Hickory, Lutheran Theological Southern Seminary in Columbia, S. C., Lowman Home for the Aged at White Rock, S. C., and Lutheran Children's Home of the South at Salem, Va.

The budget also provides \$187,000 for the work of the synod itself and an additional \$100,000 for emergency and advance work.

The convention opened at Bethany Lutheran Church here Monday evening and is scheduled to close at noon on Thursday. In attendance are 350 delegates representing 70,000 Lutherans in 200 congregations of the state. The presiding officer is the Rev. George R. Whittecar, D.D., of Salisbury, synod president.

### Pesticides Science Marvel

RALEIGH — Pesticides are one of the marvels of science that contribute to our prosperity. Without them food quality would drop, prices would rise, and we would be plagued with some of the age-old diseases and pests that have been eliminated.

We almost have to use pesticides to get good production. But, gardeners, farmers, and homemakers must use pesticides safely when they are needed.

Will Hon, extension pesticide education specialist, North Carolina State University, points out. Most of the concern over the use of pesticides has resulted from improper handling. They were carelessly used.

"When using pesticides around the house, the garden, or farm, use them safely and wisely," Hon advises. "Read the label. It should list pesticide ingredients, indicate how much pesticide to use and when, and list special precautions that should be taken during handling. It may also indicate the antidote to use in case of poisoning."

Even so, accidents may happen. In loading a sprayer, a chemical may spill. During spraying, the wind can blow a pesticide back into the user's face. How serious is this? Hon says, "It depends on the concentration and the particular chemical being used."

The treatment, however, is the same for all pesticides. If pesticide falls on the skin, immediately drench skin with water. If it lands on garments, remove contaminated articles as quickly as possible. If it gets into the eyes, immediately irrigate them with clean water. Rinse again and again. "Do not use any kind of chemical in treating the eyes," Hon cautions. "Let a physician make that decision."

If the victim inhaled fumes or dust particles, loosen his clothing and make sure he gets plenty of fresh air.

"Regardless of the irritant, speed is important," Hon concludes.

During the 19th century almost all U.S. trade was with Europe. The Roosevelt-Churchill meeting at Casablanca was held 23 years ago, on Jan. 14, 1943.

### Savings Bonds Quiz

Q—With the new 4.15 per cent interest rate on Savings Bonds, wouldn't it be to my advantage to cash in my older bonds and buy new ones?

A—No. At the time the interest rate on current Savings Bonds was increased, the rate on outstanding bonds (those purchased prior to December 1, 1965) was raised proportionately for their remaining period to maturity. By cashing your bonds now, you would also lose the tax deferral advantages you have enjoyed since buying them.

Q—How does the higher interest rate affect my Series H Savings Bonds?

A—The interest checks you receive each six months from the Treasury will be larger beginning June, 1966. Their earnings from now on will be in line with the 4.15 per cent rate announced by the President on new E and H Bonds.

Q—The other day, I bought a Savings Bond and it's no different from the ones I have been buying all along. I thought the rate had been increased.

A—The rate certainly has been increased and your bond is earning interest at the higher rate. But, in the interest of economy, the Treasury is using up its stock of old bonds before printing new ones. The issue date stamped on your bond will assure you of receiving the new rate when you decide to redeem it.
