Smoking Habits To Be Surveyed

Families in this area will be included in a nationwide survey of smoking habits as part of the June Current Population Survey of the Bureau of the Census, according to Director Joseph R. Norwood of the Census Regional Office in Charlotte.

The questions on smoking will be in addition to the monthly employment survey conducted for the Bureau of Labor Statistics, U. S. Department of Labor. Questions will be asked in selected households of 357 sample areas of the nation.

The questions on smoking, which are sponsored by the U. S. Department of Health, Education & Welfare, will be asked of all persons 17 years old or over to determine if the person has smoked at least 100 cigarettes in his life; if he smokes cigarettes now; how many a day; if he smoked cigarettes three years ago, and if so, how many a day at that time.

Persons also will be asked if they have quit smoking cigarettes for two weeks or longer during the last three years; how many times they have stopped smoking for two weeks or longer during the last three years, and what was the longest period of abstinence from cigarettes during the last three years.

In addition, males will be asked about cigar and pipe smoking habits at the present and over the last three years. Information obtained from individuals by the Census Bureau is confidential by law and can be used for statistical purposes only.

Census interviewers who will collect information in this area include: Mrs. Frances C. Hedden, 805 Meadowbrook Road, Kings Mountain, N. C. 28086.
