a lot of your neighbors have stopped baking pies!

Maybe it's because they discovered Jane Parker Pies... thousands have.

But...you say, "No thanks, there is nothing like a good home-baked pie." We agree...they're great."

But would you believe it if we told you our Jane Parker Pies taste home-baked? Probably not...until you've tried one.

Then you'd discover the crust is short and flaky like your own.

You'd discover the fruit is the kind you'd use... the best...juicy, not stiff with starch.

And if you popped a Jane Parker Pie into the oven and warmed it before serving, you'd discover a pie you'd be proud to call your own.

Are Jane Parker Pies a good reason for shopping A&P? They're one of many.

Cleveland County Census Records Total 1,741 Farms In County

A total of 1,741 farms was counted in Cleveland County during the 1964 Census of Agriculture, the U. S. Department of Commerce's Bureau of the Census reports.

In the last previous Census of Agriculture (1959), the total counted in the county was 3,084 farms.

The 1964 total is published in a preliminary report on the county just issued. The report also shows that average farm size in the county was 90.8 acres and that the average value of the county's farms (land and buildings) in 1964 was \$17,860.

Other important county statistics in the report are:

1. Value of all farm products sold by farms in the county in 1964, \$11,251,527; in 1959, \$10,389,235.
2. Value of all crops sold by county farms in 1964, \$4,978,201; in 1959, \$5,293,696.
3. Value of all livestock and livestock products sold by county farms in 1964, \$6,263,325; in 1959, \$5,086,539.

Information obtained for the first time in an agricultural census included the amount of income received by the county's farmers (\$1000) from recreational services as well as data on the use of pest control chemicals in the county in 1964.

A Census of Agriculture is taken every 5 years in years ending in "4" and "9" to gather information on the nation's agricultural resources and production. The data are needed to make decisions affecting many segments of the U. S. economy. The 1964 farm census was the 15th in a series that began in 1840.

The preliminary report for the county contain more than 500 facts about agriculture in the county. Among additional facts it contains are the number of farms by size, type, and economic class; the number of farm operators by method of tenure, age, color, off-farm work, and number of school years completed; land in farms by use and by land use practices; data on equipment and facilities; farm expenditures; number of hired workers; and number of farms reporting poultry and livestock production and those reporting crop production by acres and quantities as well as sales.

Farm Safety Week Promoted

The attention of North Carolina farm and home leaders and that of their counterparts across the nation will be focused on rural safety during the observance of National Farm Safety Week, July 24-30.

Both President Johnson and Governor Moore have urged recognition of the event.

Johnson, in proclaiming the special observance, called attention to the progress farmers have made in the production of food and fiber during the last three decades. He added, "There is one area of farm life, however, which still needs much improvement. Accidents continue to cost the lives of thousands of men, women and children on our farms, and disable 750,000 more each year."

The president termed this a "grievous and unnecessary waste of human and economic resources" and a "matter of national concern."

Governor Moore urged North Carolinians to give thought and action to the problem of farm accidents. He said, "We in North Carolina are pleased to recognize this worthwhile objective and, as Governor, I urge all farm families and persons serving with or allied with agriculture to join in this observance and to unite for safety."

The Governor asked that the people of the state take part in the special activities outlined for the week by the sponsoring organizations, the National Safety Council and the N. C. Farm Safety Council.

Attention on Sunday, July 24, will center on reverence for life and focus on the individual's responsibility for safety.

Other topics that will receive attention during the remainder of the week are as follows: Monday—safe use of farm and home chemicals; Wednesday—fall prevention; Thursday—rural highway safety; Friday—safe use of farm machinery; and Saturday—recreation safety.

FAT OVERWEIGHT

Available to you without a doctor's prescription, our product called Galaxon. You must lose only 10 or your money back. Galaxon is a tablet and easily swallowed. Get rid of excess fat and live longer. Galaxon costs \$2.00 and is sold on its guarantee: if not satisfied for any reason, just return the package to your druggist and get your full money back. No questions asked. Galaxon is sold with this guarantee by: GRIFFIN DRUG STORE—Kings Mountain—Mail Orders Filled
