Ever notice how work piles up on a lazy, sleepy, rainy afternoon? The avid fisherman's wife now gets another excuse for him to go fishing, the price of red meat being what it is.

It is estimated the U.S. has 3,750,000 farms. The average size is 242 acres.

DECORATING TIPS

By **GENE TIMMS**

Did you ever think of putting a blackboard on your kitchen wall? It will serve not only as a shopping reminder but as a place to write family phone messages, appointments, receipts and the menu for tonight.

When planning to decorate a room, many people think only of 4 walls, but to do a smart decorating job you must consider 6 "walls" or areas to co-ordinate. Four walls, the floor and the ceiling must all be given equal attention.

By the same token many people don't take into consideration that proper lighting has not one—but two distinct jobs to perform. First, you need one kind of background light for the entire room and secondly another kind of stronger light for specific purposes such as reading, card playing, etc. By realizing both functions of lighting, you'll do a better job.

You can put new life in a drab room with fresh colors on fabrics and accessories or with vividly colored artificial fruits and flowers.

Here's another decorating idea to think about. You may want to mix the old and the new. For greater interest and contrast, try using a fine antique chest in an otherwise modern room, or modern art in a traditional room.

And don't forget—for help in attractively furnishing your home, we are at your service always, and remember, if it makes a difference, we'll save you money, cash or terms, you still get the discounts every day in our store.
