Health And Safety Tips

Tuberculosis still is a serious health problem in the United States.
One hundred thousand Americans are walking the streets today with active infectious tuberculosis who don't know they have it, says Today's Health, the magazine of the American Medical Association.
By the time symptoms appear—fever, weight loss, coughing, and perhaps blood spitting—the disease has reached a point at which control is difficult. Some won't recover; 10,000 victims died from tuberculosis in a recent year, Today's Health reports.

Everyone is susceptible. TB is contracted from someone who has it, mainly by breathing air contaminated with TB germs. These are spread by coughing, sneezing and spitting. Sometimes a person becomes infected when germs enter his mouth from contaminated fingers, food or eating utensils, or from kissing an infected person.
If active tuberculosis is diagnosed, your physician has a choice of a variety of drugs, such as streptomycin and isoniazid, which effectively suppress the germs while the body builds up its own immunity.
Children under five are a "high risk" group because of the frequent and close associations with their parents, relatives, household help and baby sitters, any of whom may be carriers.
The Colorado river flows through the Grand Canyon at the rate of seven miles per hour.
Farmers irrigated about 37 million acres of farmlands in the U. S. in 1963.
Formosa has 32 newspapers, several of which are printed in English.

Everyone should have an annual check-up in the form of a skin test or chest x-ray. These tests are available free in most areas any time of the year. Local public health officers and the local chapters of the National Tuberculosis Association will direct

Are there really any sound reasons for buying a Chevrolet in August?

During August, it's as easy to own a Big Air 4-Door Sedan as getting in the car.

Wait till you see how sporty you look sitting in your Impala Super Sport.

In a word: Six

- Have you ever known the instant delight of selecting a new Impala Super Sport in the color you want, slipping into its Strato-bucket seats, and driving it home from the showroom the same day? Now's your chance. Your Chevrolet dealer has a big choice of models on hand with small August price tags.
- More than likely, your present car will never be worth as much in trade as it is right now. Money—another good reason to buy a Chevrolet this month.
- Read those articles about when to buy a new car and they'll tell you that August is one of the best months. And your Chevrolet dealer is ready to show you why... with buys that are better than ever.
- If you think winter's tough on an old car, believe us, so is summer. There's added strain on the engine because of vacation driving. Greater tire wear. The cooling system has to work extra hard. A new Chevrolet can save you a lot of trouble.
- You do a lot of driving for pleasure so why not ride on Chevrolet's Full Coil suspension. Let your feet feel that deep-twist Chevrolet carpeting. August is to enjoy.
- Make your summer driving safer driving by taking advantage of the eight standard safety features built into every new Chevrolet. If your present car doesn't have seat belts, back-up lights, outside rearview mirror, padded instrument panel, look into a new Chevrolet.

Chevrolet • Chevelle • Chevy II • Corvair • Corvette

See the man who can save you the most— your Chevrolet dealer
