DECORATING TIPS BY GENE TIMMS WHY IT TAKES COURAGE TO FURNISH A HOME CORRECTLY

If you don't want your home to look the same as all most everyone else's, if you want your furnishings to have character and personality, then you must have courage of your convictions.

It takes a certain amount of courage because most people are tempted to furnish in what they think to be the latest style or trend of the moment, instead of considering the actual needs, likes and living habits of their families.

Whether you like formal or informal living, traditional or modern, simplicity or elegance, remember it's your home and you should furnish according to the way you and your family want to live.

Would you like to use an Early American rocker? Would you like an abstract painting on the wall of your traditional living room? Would you like to use a traditional lamp in a contemporary room? Then by all means have the courage to do so.

"Something old, something new" is a good idea to break away from sameness in furnishing a room. Also, bear in mind the poem, "something dark, something light; something dull, something bright" to add sparkle and contrast to any room.

Don't make radical changes just for the sake of being different; but if they are changes that'll give the room a lift, if they are changes that you and your family will enjoy living with and looking at, have the courage to go ahead and make them.

And, remember, we can help you select exactly what you want.

And, remember here at Timms Furniture we offer better values for less — cash or monthly terms.

Looking forward to your next visit to our store.
