Zip Code Your Mail Now Says Alexander

Residents of Kings Mountain will be offered an opportunity to ZIP Code their mailing lists during October, Postmaster Charles Alexander announced today.

Letter carriers deliver "no postage needed" cards to each of the city's 3,003 residential delivery stops beginning October 10, the postmaster said. The cards will have blanks for addresses used most often, but for which individuals do not know the proper ZIP Codes.

Throughout the nation 95,000,000 of the cards will be delivered.

In rural areas and cities with one ZIP Code assigned, only an out-of-town card will be delivered since all local addresses will have the same ZIP Code.

"This is a good time to get the ZIP Codes missing from your lists," Postmaster Alexander noted. "This Christmas, ZIP Code will be as important as shopping and mailing early for the efficient and on-time delivery of the record-breaking avalanche of mail expected in the pre-holiday weeks."

QUESTIONS AND ANSWERS

Q. A patient received 100 home health visits following his stay in the hospital under the basic plan. His condition is such that his doctor feels he needs additional home health care. Is it possible for home health visits to be continued under the Supplementary medical insurance plan in the same calendar year?

A. Yes, the coverage of home health services under the supplementary medical insurance is in addition to the visits covered under hospital insurance. Medicare will pay 80 per cent of the reasonable charges for 100 additional visits in a year after the \$50 deductible has been met.

Q. Will Medicare help a person who has been in the State Hospital for years and for whom there is no encouragement of discharge.

A. In this situation nothing would be paid by Medicare for the person's stay in the hospital. This is because Medicare is designed to help bear the cost of the active phase of hospital treatment rather than the cost of custodial care. On the other hand, such a person could possibly receive some benefits under the doctor bill insurance part of Medicare. Some of the services of physicians in active treatment would be covered. Of course, he would be subject to the \$50 deductible for each calendar year.

Q. What happens if I cannot pay the first \$40 of the hospital? Will Medicare not pay anything? Or will Medicare hold off until I can pay the \$40?

A. Medicare will go ahead and pay for the covered services over \$40. Payment of the \$40 must be worked out between the hospital and you. (Medicare will pay according to expenses incurred by a person, not according to expenses paid by the person.)

Q. Will Medicare pay for domestic services required by a person because of their illness?

A. General housekeeping services are not covered under either the hospital or medical insurance programs.

Q. Will a person who is in a participating hospital on July 1, 66 be covered immediately? If they have been hospitalized several days, will they have to pay a \$40 deductible based on their hospitalization beginning July 1, 1966?

A. Yes you will be covered on July 1, 1966, the effective date of this program. Your "spell of illness" will begin July 1, 1966 and the \$40 deductible must be paid for the services covered on or after the effective date.

Q. Can you give me the name of insurance companies who will have policies to supplement Medicare?

A. We do not have any information regarding private insurance policies. We suggest you contact your local insurance agent or insurance company.

Q. If I am away from home and have to go to the hospital or need a doctor's care, will be covered under my hospital and medical insurance?

A. Yes, your Medicare coverage is effective throughout the United States.

Q. I have been going to a chiropractor for treatment of my back. I expect to continue going to him because he seems to be helping me. Will Medicare pay any part of the chiropractor's bill?

A. Services of practitioners such as chiropractors, naturopaths, chiropractists and optometrists are not covered by the

SHOULD YOU BUY PLASTIC TOPS ON FURNITURE?

When plastic tops (or high pressure laminates, as they are known in the trade) first made their appearance a number of years ago they were looked upon with disdain by many

of the manufacturers of better furniture and leading decorators. But with the great improvements in their appearance, finish, texture, beauty and serviceability, the furniture industry is giving plastics the acceptability and usage they deserve.

At first, many plastics, though serviceable, were a poor imitation of the wood grains they were trying to match. You could quickly recognize plastic topped furniture because it was usually shiny and looked different than the rest of the furniture on which it was used.

However, new plastics with their beautifully matched wood-grains, their hand-rubbed appearance, their textured look and feel, and their antiqued and other finishes have earned their acceptance by the public and more and more of the better manufacturers.

These plastics, made by many manufacturers, and known by such trade names as Formica, Nevamar, Textolite, Plonite and other brands, are resistant to heat, stain, scratching and general wear, and will generally prolong the life of any piece of furniture.

Speaking of furniture, no matter what your tastes, desires and budget are, we'll help you select beautiful and comfortable furnishings for your home. Come on in. There is no obligation. You can look around at your heart's content. We'll be happy to see you. "ALWAYS A DISCOUNT"
