R. E. Hambricht Store, including checks and some cash, were in a metal cashbox he had carried with him from the store to Bill Camp's Barber Shop and back to his truck. Hambricht had taken his mother home before going to the barbershop for a haircut.

Bill Camp, getting ready to close his shop after Hambricht left, heard the two shots. Before closing he had returned from the front of the shop to catch results of a ballgame on television.

Mr. Hambricht was the only person on the street at the time and all businesses were closed. Dr. Charles Moore treated Mr. Hambricht for the leg wounds and admitted him to Kings Mountain hospital for the night. He was back at work this week but was still undergoing treatment for the leg wound.

Sheriff Haywood Allen, assisted by Detective Sgt. Bobby Putnam and Deputy Paul Barbee, made the investigation. A stolen car was found abandoned on a Grover street later that night and passersby noticed an automobile exit from the First Baptist church parking lot at high speed and without lights shortly after the attempted robbery occurred.

County law enforcement officers also reported that a thief or thieves entered Dixon Road I-85 Truck Plaza Saturday morning and reportedly took \$3,000 from a cash drawer in the office of the station. Entry was apparently gained by climbing the outside fire escape ladder to the upper floor. The door on the office was forced open and the office ransacked. Detective Sgt. Bobby Putnam and Det. Palmer Cannon said the office is located on the second floor, near a location where truck drivers sleep.

ing the necessary research to have it certified by the Federal Aviation Agency was tougher than the physical work of making it air-worthy.

"The last owner lost all the papers, the loss and registration. I had to go through the FAA to get it re-registered. Half the job was rebuilding the plane the other half was getting through all that red tape."

Altogether it took Henderson about four months to get the papers in order.

FROM SCRATCH
Although he has been flying off-and-on since 1960, Henderson said he learned the mechanics needed to rebuild the trainer when he tore down his first PT 26.

"I don't have any plans now, other than to fly it. If everything works out, though, I may take it to an antique air show in Illinois next year," he said. The plane has four years to go until it can be officially considered an antique.

Henderson said the plane was originally designed as a primary trainer — the first in a series of aircraft flown by would-be fighter pilots before they could fly the real thing.

MAIDEN FLIGHT
His plane made its maiden flight last week, piloted by Ron Freeman, manager of the College Park Airport. Freeman said Henderson did a great rebuilding job.

Henderson said after he gets about 25 hours flying time logged, he will do aerobatics with his plane.

"If I ever get the urge to rebuild something else, it will be something older. I'll probably

**Allen To Speak
To Kiwanians**

Cleveland County Sheriff Haywood Allen will be guest speaker at Thursday night's meeting of the Kings Mountain Kiwanis club at 6:45 p.m. at the Woman's club.

Allen, a native of Kings Mountain, has served as Cleveland County sheriff for 21 years. He was a member of the Kings Mountain Police Department five years before being elected sheriff.

He is married to the former Magel Stewart of Kings Mountain. They are parents of two daughters and a son. Sheriff Allen has attended numerous F.B.I. schools and the Institute of Government.

**Bidding Items
On City Agenda**

Principal items of business on Tuesday night's regular meeting of the city commission will be receipt of bids for a sewage department rodder and for curb-and-gutter on several city streets.

Both bid invitations have been reissued.

No bids were received on December 27 on the rodder and two bids on the curb-and-gutter were ruled insufficient in that both bidders entered gross bids aggregating \$40,000 each, with three deemed required by North Carolina law.

The commission will convene at 6:30 p.m.

Excessive speed and driving under the influence of alcohol were the two major causes of highway accidents in North Carolina during 1968.

The misuse of alcohol contributes to over 800,000 automobile accidents and 25,000 deaths each year in the United States.

Failure to have a motor vehicle inspected annually in North Carolina can bring the owner a fine of \$50.00 or more.

The first automobile license plate for 1969 sold at the Motor Vehicles Building in Raleigh went to Ivey Lloyd Styers, Route 2, Raleigh.

There were fewer serious injuries on North Carolina highways during 1968 than during the previous year.

Mini-bikes and go-carts are subject to all motor vehicle laws when operated on a public street or highway.

Approximately 600 people are in North Carolina prisons for motor vehicle law violations.

the Sharp Trader buys at better than wholesale

...because he buys where his bread is buttered

A REAL sharp trader doesn't need "connections" or "special discounts" or catalogs, or any other gimmick to get what he buys at BETTER than wholesale.

Maybe you think we're kidding?

Not at all. It's a fact. When you BUY in the community you LIVE in, you know that every cent you pay for goods and services above wholesale cost stays here at home with you. By staying here, it can

get around to buying MORE good things for you and your family.

It's trading material . . . and TRADE ALONE builds communities with better opportunities, better schools, better churches, better neighbors.

Any ONE of these advantages could bring you returns beyond measure in a BETTER LIFE, as well as real CASH returns in the form of increased business.

improved property values, a better job, more people to help you carry the load of normal community expense.

All of this — which you don't get for your money when you buy somewhere else — makes the cost of the actual GOODS very low . . . when you buy them at home.
