

### KM Action "For Everyone"

"Action" is for everyone is how a spokesman describes the work of this organization.

He added:

"What do you do when your problems press in on you so much? Do you feel as if you can't carry them. There is always someone ready and willing to listen to you in the most confidential way. If we can't just have someone to talk to, or listen to us, and know what we say will be kept confidential, our problems seem so much easier to face. We even find by talking to someone else that our problems are not so great, when we compare them to others, many times.

"It is so easy just to quietly and secretly pick up your phone and dial 739-5579. Then calmly discuss your problem with a confidential person who will help you to solve your problem or any information you need to obtain. We want to talk to you and help you. TRY OUR SERVICE YOU WILL LIKE IT!"

### Letter To Editor

To: The Editor

I am sure that everyone in this area is aware of the misfortune that we have had in recent weeks with the sinking of the diesel engines at our Buffalo Water Treatment plant. This happened not once but twice within just a few short weeks. We hear about this on television and read it in our news papers but do we really stop to think of the seriousness of all this and the time that is involved for so many people in trying to get the plant back into operation so that you and I as citizens of Kings Mountain can have water to drink and use in our homes and the industries can continue to operate in order to supply jobs and income for our citizens?

Our water supply is something that I am sure each of us take for granted. We turn the faucet and expect the water to be there. Do recent weeks if it had not been for the combined efforts of so many people then this city and a few of the surrounding areas would have been in trouble as far as our water supply was concerned.

My husband being an operator of the water treatment plant, of course makes me realize how serious the problem is at times like we have just experienced. There are so many people that we owe thanks for their great job that they did in restoring our water supply and I would like to take this opportunity to try to say a most humble and grateful thank you from our family. As I visited the Buffalo Plant during the recent weeks and saw the National Guard units, Rescue Squads, Red Cross, the Civil Defense crew from Alabama, Haywood Allen and his men from the Sheriff's Department, the divers from Shelby, all of these men were working so hard in the rain, mud and cold to try to help each of us that we might have our water supply restored to normal then I bowed my head in prayer and ask God to help all those who had had put in such long hours working around the clock to restore our water supply.

Our Mayor and the members of the city work force did not stop until they saw that everything was in order and working as I should be.

To everyone who worked so long and so hard I again say a most sincere THANK YOU for a job well done and most appreciated—Mrs. Floyd E. Davis.
