By WILSON GRIFFIN
In handling a baby, one cannot overemphasize the need to adequately support the head. An infant's head makes up roughly one-fourth of the total body weight. This heavy head supported on a weak frail neck can lead to fatal spinal injury if carelessly handled. The urgency of properly supporting an infant's head should be impressed on anyone who will be allowed to handle the baby.

After you see your doctor bring your prescription to
Drug Store

REDUCE SAFE & fast with GoBese Tablets & E-Vap "water pills". Griffin Drug. 3:29-5:11pd.
