

Joint Listings Announced

Southern Bell today proposed a way for husbands and wives to have joint listings including both first names in the telephone directory.

The proposal actually goes further than that. In the filing with the North Carolina Utilities Commission, Southern Bell is asking permission to allow residential customers to have "dual-name listings" for any two members of a household who have the same last name.

Graham said the company is not proposing a monthly charge for dual-name listings at this time. He said the company would review the impact of dual-name listings later to see whether such a charge would be appropriate.

There will be, however, a one-time service charge of \$8.50 for those customers who elect to change their present directory listing. This charge does not apply to new installations.

"We would encourage customers requesting dual-name listings to order an additional listing with the reverse order of the given names," Graham said. This would be charged at the normal residential additional listing rate — 60c monthly — and would "make it easier for callers to find

the number of the person whose given name is listed second in the primary listing," he said.

Graham said the new regulation would permit customers to list both given names and or initials after the surname. "It would be up to the customer to decide which comes first," he said.

For example, a couple could be listed "Brown Mary-John" or "Brown John-Mary," and the listing would appear in alphabetical order depending on which name comes first after the surname.

"The proposal results from a review of Southern Bell policy, and we believe the time has come to make this offering," Graham said. He said the company won't solicit dual-name listings, "but we'll be happy to go over all the options with interested customers who call our business office."

If the Commission approves the regulation, dual-name residence listings will be available in the next directory published for Kings Mountain. The cutoff date for new listings and listing changes is September 15, 1977, and the directory will be delivered October 26, 1977.
