

Completes
Recruit
Training

Marine Private First Class Harris O. McConnell Jr., son of Mr. and Mrs. Harris O. McConnell Sr. of Rt. 2, Box 373, Bessemer City, has completed recruit training at the Marine Corps Recruit Depot, Parris Island, S.C.

During the 11-week training cycle, he learned the basics of battlefield survival. He was introduced to the typical daily routine that he will experience during his enlistment and studied the personal and professional standards traditionally exhibited by Marines.

He participated in an active physical conditioning program and gained proficiency in a variety of military skills, including first aid, rifle marksmanship and close order drill. Teamwork and self-discipline were emphasized throughout the training cycle.

A 1975 graduate of Bessemer City High School, he attended Gaston College, Dallas, and joined the Marine Corps in October 1976.

CCTI
Adult
Service

The Educational Resources Information Center (ERIC) available through the Learning Resources Center (LRC) at Cleveland Tech greatly simplifies the development of a research project in education. This service is one of the services offered to the adult citizens of Cleveland County through the LRC program of Cleveland Tech. The librarian at CCTI, Ms. Rebecca Howard, stated, "materials that researchers in education wouldn't easily find through standard reference sources are available through ERIC. Persons using these services quickly realize the value of learning from other's experiences."

What can ERIC do? Education Resources Information Center can identify new and significant educational developments, find the latest information on preservice and inservice education, identify new classroom techniques and materials, identify "how-to-do-it" projects for personal and professional development, and compile bibliographies on specific educational topics.

Two unique services are offered in areas. First, ERIC, provides readable, medium-length abstracts of materials. Second, ERIC provides inexpensive microfiche of the complete text of many noncopyrighted and unpublished materials.

The two major searching tools used by ERIC are "Resources in Education" which is published in two forms "Educational Documents Abstracts" and "Educational Document Index," and "Current Index to Journals in Education."

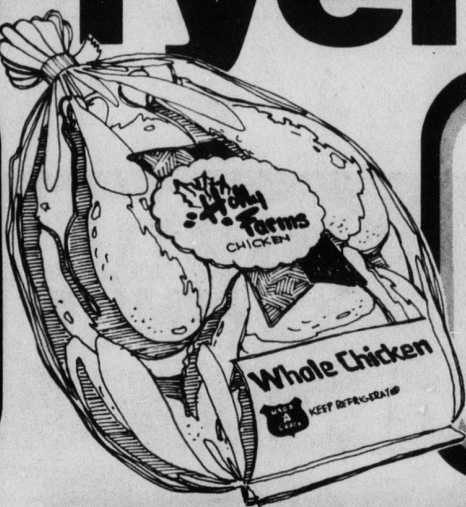

Two paths are available to the educational researcher the manual search process and the computer search.

Ms. Howard, Librarian at Cleveland Tech, invites all adults to call, 482-8361, or visit the LRC and make an appointment to learn how to employ ERIC for educational research.

Teachers, principals, superintendents, librarians, and other persons pursuing a graduate degree in education are urged to take advantage of these services available at Cleveland Tech.
