

Dwyer, Ollis To Be Hired

Following several interview meetings the city's personnel committee was to recommend to the board of commissioners that Edward Dwyer and Walter Ollis be hired as the superintendent of public works and the foreman of streets, water and sewer construction.

Dwyer, 42, of Riviera Beach, Fla. has been employed as director of utilities at Riviera Beach since 1972.

Ollis, 41, is a native of Avery County and for the past three years has been the superintendent of sewer department in Canton, Ohio.

Since the death of Hal Hicks, who served as the streets, water and sewer construction foreman, there has been no one appointed to head this relatively new department.

Both Mayor John H. Moss and Engineer Al Moretz have taken turns handling the public works department duties.

Mayor Moss said of the streets, water and sewer construction

department "With the growing requests for services by citizens and the requirements from the Environmental Protection Agency and state regulations for water and sewer construction, it was necessary to add this department to the city's public works program."

Humes Houston, chairman of the personnel committee, said the committee advertised for a public works director in the municipal trade magazines and the application response was large. The committee interviewed seven applicants before deciding on Dwyer and Ollis as their recommendation to the full board. Commissioners James Childers and Norman King also serve on the personnel committee.

Since The Mirror-Herald went to press before the recommendations came before the commissioners Monday night, the full story of the vote will be carried in the Thursday edition.
