Where you're number one

Over-the-counter hemorrhoidal products from the pharmacy are normally effective for their intended purpose. However, remember that conditions other than relief of hemorrhoids can cause anorectal discomfort.

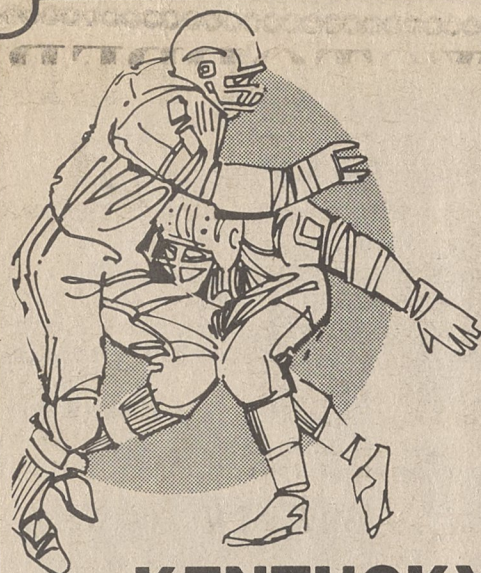

Stick with this rule: If hemorrhoidal symptoms are not significantly relieved or cleared within seven days, or if bleeding occurs anytime, call your physician.

When you have a question about any of today's OTC products, your personal pharmacy has the information you'll be needing. Be cost-efficient and choose our pharmacy where we count you number one.
