Before Iget deep into Grover News, let me say hey to Jenny Reid. I'm already threatened with read-block, license suspension, transfer, and no showing off my next grand-child. I hope this takes care of my warning citation.

I might as well not get into Grover News as to The Easter Time arrivals and departures. I'll never get out. There isn't a column big enough to include all the comings and goings. So, I might hold this part of Grover News until the Summer lull. What with having some arrivals in our own domain, I've had less time to find out from anybody else who and what is going on. I'm sure there are many Eas-ter Time Blossoms -- annual and perennial -- that we'd like to know about, but more in detail than just saying they came and went. Even with a bumper crop of blossoms, there was a lot of conspicuous in absence. Billy Kiser did not get home as was anticipated. Still no word from Maynard. Vardell got back in

circulation. Hope his insur-ance covers bashed-up shoulder bones. Bryte limped along; but she got there every night and Easter too to help sing songs. Thanks. Saw Marge and Mrs. Crisp and Liz at the cemetery. Even by Saturday Noon it was beginning to look remembered. We checked by again after the snappy storm and there were even more indications of gone, but not forgotten. We hadn't been home any time until a lovely, beautifully arranged bunch of Nature-scented flowers arrived for our pleasure and I knew once again the thrill of being here, and not forgotten. Janet Crichfield from South Bay, Florida has ..... been in Shelby for a week visiting her sister, Ginger Rountree. Theyall came over with the flowers.

> It's back up time-----Best wishes to Shirley's Bolin's step-father's recovery from surgery. Shirley's been driving over to Mooresville in rain, sleet, and snow to keep check on him.

Congratulations to Doris Cook's Parents on the recovery of their TV which was illegally removed from their home a few weeks ago.

And very chubby congratulations to Betty and Alma Bolin on being the winners at the last two weeks' weighin. As soon as I enlarge my nces - and chances are

all I want enlarged, I want in on this weigh-in. I'd like to win enough to go to the Health Farm that Luci J. Nugent is all time going to. But, if I won that much, I wouldn't need to go. Looks like if I lose, I win.

Whatever the extreme op-posite of congratulations is, that's what goes to Mildred and Paul, the girls, and Alan. Pet-wise, their traumas have been terrific. On the other hand, Vassar and Vinnie Hardin have very happy progress reports to make on their four Siamese kittens

I hadn't heard about the new poodle puppies at The Charlie Harry's house until Tuesday night. Wednesday Holly and I went by to see the one remaining with them. You'll never see a more PRECIOUS mistake. Scott, keep opening those doors and keep letting all that SUNSHINE in. The spots are there, but there's so much more without spot.

Mary's back and the sun is out. Look for the spade sparks to fly. Those sparks might be aimed at Deaconess Mc. Harry. She could be trying to sow some wild oats in Mary's garden. Hoe! Hoe! Hoe! Bess is back too -- And she's probably gone again too. It'll take a special edition for her alone.

Fannie bakes again. Decid-edly deliciously!!!

The Sunrise Time was just super splendid. The sun came up; the moon didn't want to go down; people arose to pro-claim HE IS RISEN-- cocks crowed; birds chirped; kids squealed; bacon sizzled and The Shiloh Presbyterian Pancake House was sweet with syrup and sentiment. Was syrup and sentiment, was there ever such snappy flap-ping and pokey perking???? There is no such thing as in-stant coffee unless you like it cold. To all you affiliates of the day: LET'S AFFILIATE

LOTS!

A select few met Tuesday Night for Woman's Club. We had the best time enjoying one of our own give the program. Jean Francis who started out as a student at Cleveland Tech, and became more gainly involved, told us very informatively a lot of the things about our technical schools that we didn't even know we'd always wanted to know. We know now that we have a more practical respect for these schools -- especially Cleveland.

## **Extended Unemployment Benefits Are Ceased**

Extended unemployment insurance payments, which per-mit eligible jobless workers to claim benefits past the nornal 26-weeks entitlement. have "triggered" off in North Carolina, Franklin L. Ware, Manager of the Employment Security Commission reported today.

Ware said extended payments of 13 additional weeks are no longer available because tional Unemployment has fal-len below 4.5 percent for three consecutive months.

The Labor Department in Washington informed states that extended benefits would cease with all weeks ending March 26.

Considered emergency leg-

islation by the Congress, the

extended benefit program paid approximately \$1.2 million to jobless workers in North Carolina during the 12 weeks it was in effect. The amount represented about 24,000 weeks unemployment. Half the cost of extra payments were paid by the Federal govern-ment and the State paid the balance out of its unemployment insurance fund.

In spite of moderate unemployment about half the National rate, extended benefits were made available here and

in all states because of an unusually high unemployment rate experienced nationally at the beginning of the year. The additional benefits were allowed by 1970 Federal UIlegislation and by 1971 ammend-ments to the State unemployment insurance law by the General Assembly. They were payable to unemployed work-ers who had exhausted their regular 26 weeks of navments.

BOWLES COMMITTEE CHAIRMEN--Mrs. C. D. Forney, Jr., of Lawndale, left, and Mrs. C. Rush Hamrick, Jr., of Shelby are serving as co-chairmen of the Cleveland County Women for Bowles organization. They and the 175 other members of the Committee are boosting the Democratic gubernatorial campaign .of Hargrove (Skipper) Bowles,

Snapper has developed a great attachment for vacuuming grass, leaves, pine needles and light litter.

We call it the grass catcher attachment. But it takes care of a lot more than just grass clippings.

And it's mounted in the back, to offer easier handling and greater maneuverability as you vacuum clean your lawn. Optional grass catcher fits all 26" or 30" Comets. Holds six bushels. • Unloads in seconds.
