## Health Director Cites Midpines Violations

Richard Steeves, Health Director of Cleveland County addressed the Cleveland County Board of Health Thursday and cited problems in the Midpines area of Kings Mountain.

Steeves told the members that unless steps were taken by the citizens to comply with certain health standards, legal action would be taken.

Mr. Steeves told the MIRROR that the board had been working with the citizens of Midpines since early this year trying to correct certain health problems. The main problem centered around the usage of 55 gallon drums for garbage disposal. "We advised the people that these were illegal," said Steeves, "and that they would have to be changed."

He went on further to say that many of the people had corrected this problem and were now using the standard 32 gallon galvanized containers.

Steeves told the MIRROR that he wanted to work with the people over the matter and that a public hearing had been held a few months ago to explain the problem. He continued by saying that almost everyone had met the requirements but a few had not. According to Steeves, about "six people have received letters from our attorneys" concerning the situation.

Each community in the county receives attention from the board concerning health problems in the areas of garbage disposal, water and air pollution and septic tank violations. Steeves explained that violators of the laws will be prosecuted and added, "we are not bluffing."

**Good Definition**  
If someone would ask you why a ship is always referred to as "she or her" you might give this explanation. "It costs a lot to keep her in paint and powder, she'll drift off if you don't keep her ti down, she makes her best showing in a high wind and it takes a man to handle her."

**Found**  
Two men were talking together in the public library. Said one: "The dime novel has gone. I wonder where it's gone to?"  
The other, who knew something of literature in its various phases, answered cynically: "It's gone to two dollars and fifty cents."

## Nick Smith Says Assistant Needed To Keep In Touch

Nick Smith, Republican candidate for Attorney General of North Carolina, and a native of Kings Mountain voiced his support recently for an Assistant Attorney General whose job it would be to travel to various parts of the state on particular days to hear about peoples problems, and would report directly to the Attorney General. "One Assistant Attorney General listening to citizens full time would be better than twenty sitting in Raleigh," said Smith, who says the office of Attorney General is supposed to represent the public interest. He cites a lack of confidence in many of our institutions on the part of the citizenry, because they don't feel that "government is responsive to their opinions and needs."

Smith added that people are skeptical about government

because they don't feel that those in power will listen to them, and that the Department of Justice should have a plan for maintaining contact with citizens far from Raleigh.

## Monsanto Launches Drive

Walter E. Cavell, plant manager, Monsanto Textiles Company, Blacksburg plant, officially kicked-off their United Way Drive during the week of September 25, 1972. This is the only fund-raising drive that Monsanto endorses in its plants. Monsanto employees historically have responded generously by surpassing the plant goal for the past six consecutive years. Last year the Blacksburg plant exceeded its goal by 25% which presents a real challenge in meeting this year's goal.

Shown above are Charlie Mullinax, Freida Bowen, Pat Hall, Martha McGlothlan, Charles Stephens, Ann Green, Don Moore, and Roger Dixon "Lighting the Torch" as Monsanto Textiles Company, Blacksburg, officially kicked-off their 1973 United Way Drive on Wednesday, September 27, 1972.

Probably the biggest fan at Sunday's Loretta Lynn show out at Crossroads Music Park was this little girl. Her name-Loretta Diane Flynn, her parents are Mr. and Mrs. Vance Flynn of Forest City. Her father happened to remark that she was named after the famous female vocalist as she shelled out \$10 for the two record albums she's holding. (Mirror Photo by Rodney Dodson)

## Ferguson Cont from Pg. 7

Patrick and Virginia lay peacefully in their grave for some 65 years, soon forgotten by survivors of the battle. Then the grave of Maj. Patrick Ferguson was opened.

**Last Request**  
After the Redcoats were defeated, an American officer went to the tent and asked her if there was anything he could do for her.  
"Patrick," she whispered, "bring him to me."  
The officer moved Virginia near the camp fire and brought the dead body of Ferguson to lie beside her.  
"Please do something for me," she said in a faint whisper. "Please bury me in the same grave with Patrick, safe in his arms forever. Wrap us both in the British flag for which we both gave our lives." The officers standing by nodded they would comply.  
Virginia smiled her thanks, and with a great effort raised herself from the ground. It took her last strength to kiss the cold lips of her lover. Then her head fell forward and her beautiful long blond hair fell across the breast of the dead Redcoat.

**Skeletons Found**  
Robert Lee Durham wrote in the forum of a North Carolina newspaper about 65 years after the Battle of Kings Mountain:  
"When the grave was pointed out to Dr. James W. Tracy by Old Man Harmon, 80-year-old man who had been a boy of 15 visiting the scene of the encounter and claiming to know Ferguson's burial place, two skeletons were found. One skeleton was that of a woman-something of a confirmation of the tradition that one of Col. (Maj.) Ferguson's two mistresses, Virginia Sal, was killed in the battle and was buried in the grave with him."
