

Amy's Cooking Talent Pays Off

Ten-year-old Amy Green has been cooking since before she was tall enough to reach the kitchen counters.

Her culinary talents paid off with a blue ribbon at the recent 4-H Clubs Achievement Contest in Lincoln County where she was among four Dixon Community 4-H Club members coping ribbons and awards.

Amy's mother, Mrs. Frances Green, and her late father, Bud Green, initiated her as a 4-H'er as they were rearing their big family in the 4-H Club and serving as leaders. Mrs. Green continues as a leader in

the organization.

A fifth grader at Grover School, Amy likes to help her mom do the baking and her "Muffin Surprise" recipe is always a favorite at the breakfast table and for company occasions.

Other blue ribbon winners were the brother-sister team of Robbie and Sandy Wells who took first in a talent division after also winning the county competition and advancing from competition at Carowinds to compete in Lincoln County last week. Sandi sang "Scars In The Hands of Jesus" to her brother's

piano accompaniment. They are son and daughter of Mr. and Mrs. Carveth Wells, also of the Dixon Community.

Ann Childers, daughter of Mr. and Mrs. James A. Childers of the Dixon Community and a Grand Champion in the recent 4-H Achievement Day, took a red ribbon for her unique home environment demonstration on "Solar Energy-Power of the Future" in which she explained both the advantages and disadvantages of solar energy. Miss Childers noted that advantages are that power bills

are cut and there is an abundant supply while the disadvantage is that the installation cost for the home is quite expensive, ranging from \$5,000 to \$19,000.

Amy shares her prize-winning recipe with Mirror-Herald readers.
