service this Christmas season they should use ZIP Codes, place their return address in the upper left corner of the envelope and use proper postage.

"By following these suggestions," Postmaster Weaver says, "Customers will be assured good mail service this holiday season."

It is important, the Kings Mountain postmaster says, that families "double check" envelopes and cards to be certain that proper postage is affixed. Envelopes without postage

will be returned to senders, if possible, or delayed by postage-due procedures.

When the return address is placed on envelopes bearing holiday greetings, it also helps remind friends of one's current address.

And, if the family to whom a holiday message is sent moved more than a year ago, it cannot be forwarded. With a return address, Postmaster Weaver says, such letters are returned to the sender with a notation that the forwarding "order" has expired.
