Grand Opening Set Saturday

(From Page 2)

features of the apartments. The apartments are equipped with refrigerator, stove, garbage disposal and the living room and bedrooms are carpeted. Central air-conditioning and heating, along with a club room and laundry facility is provided. A tennis court and swimming pool are to be added as soon as weather permits construction. Patios are features of the one-bedroom apartments and there is plenty of parking space.

The exterior is of brick veneer and wood siding and the apartments front on West King St. and Juniper St.

A spiral staircase from the living room to the loft was designed especially for the two bedroom apartments and Mr. Young credited framing contractors Whetstone and Whetstone of Kings Mountain with "doing a great job." He said the loft conception in apartments is unusual for this area.

Other sub-contractors on the construction job were Gene Carson of Bessemer City, electrical, and Fred Lovelace of Bessemer City, plumbing, and Mike Trammell of Trammell Associates, survey information.

"We invite the community to come to see us during the grand opening and tour this apartment complex", said Mr. Young.
