

Mrs. Walter White Finds Ghana Is Free Of Hate

Widow Of Ex-NAACP Prexy Reports On Ghana Visit

NEW YORK (ANP)—In an exclusive interview with Poppy Cannon White, widow of the late Walter White of the NAACP recently returned from West Africa (Ghana and Nigeria), several so-called myths were exploded.

Mrs. White was invited to attend the cocoa harvest and view the progress of times.

The world traveler, author of "A Gentle Knight" and some other ten works on cookery and sundry subjects, stated that Ghanians are a happy people. She found no tragedy and austerity comparable to that she witnessed after the freedom of Israel, Pakistan and India.

"Their victory was a peaceful one from what I saw on my recent visit to this land of African emancipation," she said.

Mrs. Walter White told of being invited to the Ghana House of Parliament to listen to arguments by opposition.

It was her opinion that there was give and take, despite differences, and no friction occurred.

This observation dispelled rumors she had heard voiced from

some political leaders that Prime Minister Nkrumah was a dictator.

Pleased with what she saw and delighted over the sincerity of the masses, and leaders she expects to return to Ghana this summer on invitation, for conferences, which she was not free to disclose at this interview.

One of the few women in America to receive the decoration of Chevalier du Tassein conferred upon her in France, she is also the proud possessor of another decoration, the 19th Century order of "La Chaine des Rotisseurs."

For the first time a quality index has been developed for flue-cured tobacco varieties.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be

a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H.* Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.

Garner Plays Concert For The Navajos

NEW YORK (ANP)—Erroll Garner was presented in a concert at the Navajo Civic Center in Window Rock, Ariz. last Tuesday, Feb. 24th. He appeared under the auspices of the Navajo Tribe of Window Rock, in their new auditorium. This marks the first time that a jazz soloist has performed on the Navajo Reservation.

The concert is part of Garner's West Coast tour, which was booked by impresario Sol Hurok. Garner is the only instrumentalist in the jazz genre to appear under the Hurok aegis.

Garner also was feted at a reception following his concert in Phoenix the following day, by a gathering which will include the Governor of Arizona and the Mayor of Phoenix. Funds for building a new hospital in Phoenix will be raised at this event.

Garner's West Coast tour - his first in two years - will include both civic and college engagements in Arizona, California, Colorado and Oklahoma. Garner appears in a program of improvisations, on standard works and his own compositions, accompanied by a bassist and a percussionist.

A tour of Europe and England for early autumn, 1935, is being scheduled for Garner, who won a Grand Prix du Disque from the French Academy of Arts, last season.
