Natural Prejudices Born Of Environment, Says Schwartz

ST. LOUIS (AP) — Natural prejudices can be attributed to environment, when an individual is judged on his own character and abilities "rather than the color of his skin," racial antagonisms tend to disappear, Adolph Schwartz, chairman, St. Louis Council on Human Relations, said last week. Schwartz was the moderator of a panel session which examined "The Corrosive Effects of Prejudice on the Moral, Social, Religious Society." The discussion was held at Heman Community center under the sponsorship of the adult department of the YMCA and B'nai B'rith.

Desegregation is working in schools and larger theaters in St. Louis and in other areas where individuals face the problem calmly, Schwartz said. He added that Negroes make up 30 percent of the population of the city of St. Louis, but they are restricted drastically in their efforts to advance their economic status and to obtain better housing.

He added that in many instances qualified Negroes are denied membership in labor unions; are prevented in numerous instances from buying better homes because of the attitude of lending agencies and real estate people.

Tormenting Rectal Itch Stopped In Minutes

Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special) — One of the most common afflictions is a condition known as "itching piles". It is most embarrassing for the victim during the day and especially aggravating at night. No matter what you've used without results — here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids — without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection. In one hemorrhoid case after another "very striking improvement" was reported and verified by doctors' observations. This improvement was maintained in cases where doctors' observations were continued over a period of months. Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration. The secret is this new healing substance (Bio-Dyne*) — discovery of a world-famous research institution. This substance is now obtainable in eminent-suppository form known as Preparation H.* Ask for Preparation H suppositories (convenient to carry if away from home) or Preparation H ointment with special applicator. Absolute satisfaction guaranteed or money refunded. *Reg. U.S. Pat. Off.

Mrs. Amelia Tucker Attends Zion Meet

LOUISVILLE, Ky.—Mrs. Amelia Tucker, wife of Bishop C. Eubanks Tucker, recently returned from the meeting of the Council of Church Women, which was held in the Marriott Hotel, Indianapolis, Ind., where she represented the A.M.E. Zion Church.

She reported that the women in attendance discussed every phase of church life, along national and international lines. The employment of women received much attention and it was decided that it was not only unfair to discriminate against women in employment, but un-Christian. The Council expressed grave concern over the Berlin crisis and other treats to the peace of the world. It vowed to work toward putting an end to war and to fight communism wherever it raised its head. The plight of migratory workers was discussed freely and it was agreed that the church should and must take the lead in planning a more wholesome life for those unfortunate persons who find it necessary to travel from one place to another, in order to make a living. The most searing attack, according to Mrs. Tucker, was on those persons who would censure the discussion of matters and problems unpopular to certain areas. The Council went on record as being diametrically opposed to any person, or organization that would hamper free speech, free assembly and free worship. It felt that there was no matter affecting our country that should not be discussed in all ramifications, whether it be desegregation, intermarriage or church membership.
