WE MUST MEASURE UP

ROCKY MOUNT — We know full well, as does the southern white man himself, that he has never given us an equal chance at anything, except the jail. Therefore we have been hopelessly outclassed and out-distanced in the race of life which is becoming more and more difficult each day.

We can no longer soothe our wounds by denying our denial of equal citizenship rights when you look around us and see so much in the way of luxurious living which we indulge in, even though we are at the bottom of the economic scale.

OUR SHAME

It is to our shame that we see so much mis-conduct upon the part of so many of our people in these days—especially since we have been engaged in the titanic struggle for integration and full citizenship rights, particularly over the past six years.

Thousands of our people do not realize the harm they do themselves and the entire race when they misbehave so rudely and cause the whites to say that we are not worthy of association with all Americans. It is up to our preachers, teachers and professionals to help get this message over to the unlearned and unthinking portion of our race population so that they will begin to "straighten up" and walk right and become good citizens for America.

If the preachers will preach less for a shout and apply more commonsense teaching in their sermons it would benefit our adults, as well as youths. The youths are leaving the churches because they do not take to the shouting Christianity (or religion) of the past. They are living in a world of rockets, satellites and jet-propulsion which calls for a practical working religion which does not come by moaning only. It must be lived everyday by nearly everyone.

Intelligent, consecrated ministers and laymen can find the way to reach these youths and save them from the folly of their negligent parents and some teachers who only seek out the more brilliant children from the better homes to use on their programs or to give extra training.

We must all be helped to measure up to the best that is in us so that the whole of society—our race in particular—will be lifted collectively. We are winning human rights victories everyday; but we must do exceedingly better in order to measure up and not be made to feel ashamed of our conduct and progress.

If our leaders are going to lead us; they must stay out in front of us. Christianity represents: belief in God, repentance of our sins against God and our fellowmen; love of God and our neighbors; and service to our fellowmen.

State College Hints

BY RUTH CURRENT
ARE YOU OVERWEIGHT? — Doctors say overweight isn't a little problem. It's a big one. One out of five adults carries around large slabs of unnecessary fat. The overweight adult may be struggling alone to control his weight, or he may be trying to reduce it under the guidance and with the aid of his physician, or by listening to a fad diet or pill peddler.

The enormity of the problem is clear when one considers that obesity contributes to the development of one after another of the debilitating chronic diseases. By the majority of medical people, it is believed to be a principal contributory cause of atherosclerosis, a chronic blood vessel disease involved in heart cases and strokes.
