District manager The job calls for installation of heavier conductor on 20 miles of structures extending from CP&L's 132,000-volt substation at Henderson to an interconnection point with Va. Electric and Power Company at the state line northwest of Warrenton. Crews moved in to begin work on the Henderson end of the line this week. Bazemre said. The job is expected to be completed by the last of October.

Existing conductor will be replaced by heavier wire over one inch in diameter which is made up of 45 strands of aluminum over seven strands of steel core. The line spans the Kerr reservoir and ties in with VEPCO facilities and with the government power system at Bugas Island customers in North Carolina. CP&L which supplies government power & "wheels" the generated power from the government installation. The line also serves as a means of power interchange between CP&L and VEPCO. Heavier conductor on the line will increase transmission efficiency by cutting down line losses and will also give extra margin for expected load growth. Bazemre said.

Bennett College Announces Appointment Of 14 New Members To Its Faculty And Staff

GREENSBORO — Announcement of the appointment of 14 new members of the faculty and staff at Bennett College for the 1959-60 academic year and of the return of two teachers who have been on leave, was made this week by President Willie B. Player.

Five of the appointments are in the area of the social sciences, four in humanities, two in the physical sciences and three to the administrative staff. Four of the appointees have earned their doctorates and four have earned the master's degree.

The list of appointments follows: Charles I. Brown, of Greensboro, who holds the M.A. degree from N. C. College, Durham, will teach social sciences and be director of the expanded field studies program.

John F. Hatchett, of Pontiac, Mich., a graduate of Wayne State University, Detroit, and the Boston University School of Theology, will teach religion and philosophy.

Howell T. Jones, of Toledo, Ohio, a native of Raleigh and a graduate of Virginia State College with a master of music degree from the University of Michigan, will teach violin and be in charge of the college orchestra.

Mrs. Lily Keleti, a native of Budapest, Hungary, a graduate of the Royal Hungarian States Academy of Music at Budapest, and a concert and lecture artist, will teach piano.

Dr. Doris McKinney, of Roxbury, Mass., a graduate of Sargent, with an M.A. from Boston University and the Ed.D. degree in guidance and counseling from the Boston University School of Education, will teach psychology and physical education. A native of Warrenton, Ga., Dr. McKinney taught physical education at Bennett from 1942-1945. She has been the recipient of a fellowship from the Southern Fellowship Fund, taught at Virginia State College and last year was school psychologist in the Richmond, Va., public schools.

Dr. Eunice S. Newton, of Durham, with an M.A. from Teachers College, Columbia University and the Ed. D. degree from the University of Pennsylvania, will be director of the college reading center. Dr. Newton, the wife of Dr. L. Gregory Newton, of N. C. College, for the past two years has taught at Morgan State College, Baltimore. He is a 19-30 graduate of Saint Augustine's College where he received the Bachelor of Science degree.

3 New Teachers Added To Washington School Staff

Three new teachers will be added to the staff of the Washington Junior High School for the 1959-60 school year. They are Mrs. Sadie Julia Battle, music; Miss Annie Maria Rayford, 3rd grade; and Mr. Herbert Mitchell, science.

MRS. BATTLE

Mrs. Battle, 26, is a native of Lenoir where she attended elementary and secondary schools. She later received her bachelor of arts degree with a major in music from North Carolina College at Durham and anticipates further study in music at Columbia University in New York.

Last year Mrs. Battle held the position of music supervisor for the Oxford City schools in Oxford, N. C.

MISS RAYFORD

Miss Rayford, daughter of Mr. and Mrs. E. F. Rayford of Maxton, is a 1959 graduate of the Winston-Salem Teachers' College where she majored in Primary Education. Her academic record shows outstanding work in this field. As a primary teacher, Miss Rayford will teach the third grade.

Mr. Mitchell was educated in the public school system of Massachusetts, having been born in Methuen in that state. However, he attended college in North Car-

more, Md. From 1951-52, she was a graduate teaching fellow at the University of Pennsylvania and was visiting lecturer there for the summers of 1956 and 1955.

Dr. Oscar M. Polhemus, of Guilford College, N. C., will be a part-time teacher of religion and philosophy. Holder of the STD degree from Boston University and the Doctor of Theology degree from the same institution, Dr. Polhemus also earned an M. A. in history at the University of Indiana. He is a Methodist minister, the son of a Methodist minister and the father of a Methodist minister. He is widely known for his lectures and sermons and is a member of the New Hampshire Annual Conference of the Methodist Church.

Mrs. Isabell Trounspiansky, of Odessa, Russia, a graduate of the University of Paris, with further study at the University of Indiana, will teach French, German and Russian. She worked for a number of years in the National Library in Paris and also at the Museum of Natural History there.

P. Mack Walker, of Greensboro, who holds the B.S. and M.S. degrees from A&T College, will teach basic science. A native of Mehane, N. C., Mr. Walker has taught in the public schools of the state and at the Immanuel Lutheran College in Greensboro.

Mrs. Dorothea C. Wright, a graduate of Sarah Lawrence College with a master of fine arts degree from Woman's College of the University of North Carolina, will teach English. A native of Alexandria, Egypt, Mrs. Wright's major areas are literature and creative writing.

Dr. Walter J. Hughes, a native of Greensboro and a 1935 graduate of the Meharry Medical School at Nashville, Tenn., has been employed as part-time college physician. Dr. Hughes served his internship at the George W. Hubbard Hospital in Nashville and his residency in gynecology and obstetrics at the Kansas City General Hospital in Kansas City, Mo.

Among the new appointees are 3 Bennett College graduates: Miss Phyllis E. Henry, '57, of Chestertown, Md., who has for the past two years attended the Boston University School of Theology, will be assistant director of co-curricular activities and be engaged in special work in religious

Farmers Can Cut Nematode Numbers

Farmers should plow up their old tobacco stalks as soon as the tips are in the barn. Fumery A. Todd, extension plant pathologist at N. C. State College, reports that the nematode population can be greatly reduced by plowing out infected tobacco stubbles.

"Studies have shown," Todd said, "that nematodes can be reduced 75 to 90 per cent by exposing tobacco roots to the drying effects of the sun and wind."

While this reduction is not enough to give practical control of nematodes, when it is coupled with crop rotation and soil fumigation, it gives the best control known.

Even where a severe nematode problem does not exist, Todd recommends the plowing out of old tobacco roots.

"By doing so," Todd explained, "a farmer may prevent the build-up of a high nematode population."

Todd gives these suggestions for turning up the roots. First, cut the stalks thoroughly. Then use a turning plow, large middle-buster, or heavy bush and bog disk to turn the stubbles up to the sun. A gang disk is not considered adequate.

"Remember," Todd cautioned, "if the stubbles are not exposed to the drying action of the sun and wind, the job is not complete."

There is a siren in every community, and she usually aids considerably in varying life's routine gossip.

The average American used 140 quarts of milk in 1955.

dormitory director and Miss Janie Graves, '59, of Greensboro, has been named a secretary on the administrative staff of the college. Returning from leaves of absence for advanced study will be Mrs. Mary T. Coleman, of Reidsville, instructor in education, and Mrs. Lydia Richards, director of the Children's House.
