Authorization for the allocation was announced about two years ago and actual site work and construction have been underway for over a year. The latter is in its final stages and occupancy is scheduled by the opening of the fall session in September.

The new residence hall will house 262 women students, two house mothers, and two resident supervisors. Including furnishings and other essentials, Dr. McClenney says, the

overall cost of the major project will approximate \$1.15 million.

The federal assistance was granted under the College Housing Program of HUD and authorized by the Housing Act of 1950, as amended, and is repayable at three percent interest over forty years.

The check presentation was made at a bond closing in HUD's regional office in Philadelphia to Dr. McClenney. On hand also were George R. Hunrickhouse of Richmond, Va., secretary of the Board of Trustees and college counsel, and Eugene G. Eason, bond counsel for Saint Paul's.
