The first meeting was sponsored by the Raleigh Citizens Association to bring the issue out into the open and to get feedback from the community.

Feedback came in waves after Attorney Samuel Mitchell explained the past, present and future of schools in Raleigh based on the law. Some of the statements made

- "I think we should worry about Ligon's standards first," a former teacher claimed.

-Standards are irrelevant, a young lady shot back.

At the end of these statements a member of the Raleigh Citizens Association pleaded for harmony between the young people and adults.

The meeting at St. Ambrose turned out to be an extension of the flames which were raised at Martin Street.

Attorney Julius Chambers from Charlotte was on hand at this meeting sponsored by students interested in keeping Ligon a senior high school. Members of the Raleigh School Board, Mrs. Elizabeth Coefield and Mrs. Betsy Runkle, were also on hand to receive fire from the audience.

After Attorney Chambers explained that he was representing six Raleigh parents in the case in New Bern and not the group assembled in the church, the following questions were put to the two members of the School Board.

"If you close Ligon with the high schools already crowded, where will you put those trailers, on the tennis courts?" one young man asked,

"I don't want to be like no white folks so don't force their values on me," another young man said.

Mrs. Coefield said "I'm with you kids, you know that, but let's stop playing games - some of you are playing games and people can get hurt. Let's deal with facts and figures, that's what they're doing (whites).

"The most crucial period of high school is in junior high," she said, "and that's the reasoning for putting more stress on the high schools by changing · Ligon, We believe they can bet-ter take the strain," she add-

Both meetings closed with advice that the young people should attend the hearing in New Bern.

Both meetings also left the decided impression that much community work is needed between now and September.

If you're good enough to get an Army ROTC scholarship, it'll pay for all your tuition, books and lab fees. And give you year 'round spending money.

If you're a high school graduate and you take ROTC when you get a crack at a three-year scholarship in your freshman year. Or a two-year one the year after. Or one that'll pay for your last year.

With Army ROTC, you never lose. Even if you don't win a scholarship and the folks wind up footing the bills, you get an Army commission when you graduate. That makes a college investment pay off a lot better. For years to come.

As an Army officer, you'll exercise leadership. Manage men and material. Work closely with people from all walks of life. From all over the country. And you'll have the chance to see some of the world.

Check it out. Write one of the officers below. There's no obligation. Just a great opportunity.
