EARLY CHILDHOOD

Little Scientists' Enrichment Class

The new Little Scientists' enrichment class has attracted many of our preschoolers. They have been learning about primary colors and making wonderful projects such as kaleidoscopes. The children are having a fantastic time with David, their instructor. We will be very pleased to be able to offer this class again in the fall. Don't miss out on a wonderful opportunity! ☆

The Early Childhood Dept. is happy to introduce the new **Mommy and Me** class for older toddlers. The class is a wonderful success. There are nine children and nine mother's who share an hour of fun activities on Wednesday mornings. This is also a nice time for the mother's to catch up with each other as well. Amy Wein, the instructor, has planned fun sensory and art activities, as well as a story and singing time. The children and mommies are having a fabulous experience together. ☆
