HOME MEDICAL CONCIERGE PROGRAM

- \* Home or Office Physician House Calls
- \* Physician Telephone Consultations
- \* Prescription Refill & Delivery Service
- \* Surgical and Specialist Referral
- \* Coordinated Emergency Room Admittance
- \* Access to Doctors While Traveling

"My husband and I were on our 10th year anniversary trip in the mountains when we received a call from our babysitter. Our 22-month-old son was bitten on the ear by a horse while waiting for his older sister to finish her riding lessons. After calling our son's pediatrician and not getting through, we contemplated canceling the balance of our trip and returning home. Fortunately our InHomeMD membership allowed us to speak to a doctor within minutes of our call. The doctor put our minds at ease, assuring us we had nothing to worry about, and had a prescription called into our local pharmacy right away. Our son felt better, and our vacation was saved."
