

## HOROSCOPES

by  
Korwin

**ARIES** (Mar. 21-Apr. 19): You have the right idea. Don't let anyone take advantage of your good nature. A simple NO will do.

**TAURUS** (Apr. 20-May 20): **ASTROPROFILE:** Taureans are determined, persistent and practical. They love luxury, good food, and are very affectionate, although they can be possessive, stubborn and resentful at times.

**GEMINI** (May 21-Jun. 21): A move could be both beneficial and relaxing (after the unpacking), especially since you were thinking of it anyway.

**CANCER** (Jun. 22-Jul. 21): Crying over spilt milk won't help, bring in the kitty to lap it up and get on with your life. What's done is done and can't be changed.

**LEO** (Jul. 22-Aug. 21): Time to think of others for a change; they have feelings too. Keep that in mind and you'll shine throughout the month.

**VIRGO** (Aug. 22-Sep. 22): The same old routine has you bored to tears. Find something new and exciting to do, then DO IT! That's just what you need to get out of the rut you're in.

**LIBRA** (Sep. 23-Oct. 22): Working for the weekend has you excited, but don't make single commitments when there will be so much else to do.

**SCORPIO** (Oct. 23-Nov. 22): As the summer heats up, so do you. You should cool down some before you get into something too hot to handle.

**SAGITTARIUS** (Nov. 23-Dec. 21): Who says you can't teach an old dog new tricks. Age has its advantages. Take Advantage.

**CAPRICORN** (Dec. 22-Jan. 20): Health problems could arise now. Take things easy and get plenty of rest to avoid this.

**AQUARIUS** (Jan. 21-Feb. 19): A new subject captures your attention and could prove to be very interesting, but may have unexpected consequences.

**PISCES** (Feb. 20-Mar. 20): Life in the fast lane will get you no-where, Fast. Slow down. Take things at your own pace or don't take them at all.
