

SILENCE EQUALS...

If you don't talk about safer sex with your partners because you're afraid of what they might think, imagine what they'll think of you if you contracted syphilis, gonorrhea, herpes, or even HIV. Besides, they're probably not talking about it because they're afraid of what you might think.

Think about it.

Ask yourself: if not First Tuesday...

- Who would respond to blatant corporate homophobia, and launch a local campaign against Cracker Barrel?
- Who would let public officials and candidates for public office know of your concerns, including police harassment and the Crimes Against Nature law?
- Who would establish a credible rapport with the media, and respond to issues of concern to Gays and Lesbians?
- Who would speak out on behalf of those who are unable or unwilling to be publicly identified as Gay or Lesbian?
- Who would document evidence of violence, harassment and discrimination against persons because of their (perceived) sexual orientation?
- Who would work with the Community Relations Committee to lay the groundwork for a local anti-discrimination ordinance?
