six days later on the road which runs beside the bar."

But, after Fernandez was arrested and charged with assault with intent to kill, he told the Jacksonville police a very different story.

He said he and Leonard were having sex when Leonard placed the amyl nitrite bottle under his nose. Fernandez claimed that the amyl nitrite caused him to lose control of his body, and he stabbed Leonard in a wild frenzy. But he denied stealing the money bag. Evidently, police believed Fernandez because they had not charged him with armed robbery

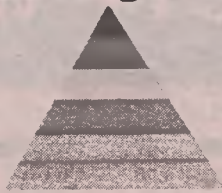

as *Q-Notes* was going to press. Leonard stated, "[The police] told me they questioned him about [the money bag], and he said he didn't know anything about it, and they believed him because he was so up-front with them."

The police detective investigating the case declined to answer any of the questions posed by *Q-Notes*, stating, "I can't talk about that."

Leonard vehemently rebutted Fernandez' story. "We hadn't even started anything, number one, and number two, poppers are not going to make you do that."

As a result of the facial wounds, Leonard said he is paralyzed below his left eye and numb in his left cheek. Doctors are unsure if he will regain the feeling in these areas.
