

# OUT IN THE STARS

**April 1995**

**ARIES** (March 21 - April 20)

Imagine yourself in a fabulous, sporty new car, racing around hair pin turns and scattering pedestrians as you go. Now imagine that you generously allow the fool next to you to steer. Good idea? I don't think so. The best thing that you can do this April is to drive purposefully, with your eyes open and take full control of the vehicle. Don't even listen to the directions of others!

**TAURUS** (April 21 - May 21)

April may be called the cruelest month, but you can help make the world a better place by volunteering for Gay causes and doing good things for our community. Consider a little home entertaining or spend some time redecorating or refurbishing. For the fullest effect, be sure to plan pleasant home-based projects involving family and childhood friends.

**GEMINI** (May 22 - June 21)

The corporate chickens will come home to roost this month if you have allowed yourself to drift in your career. Don't panic; friends and certain acquaintances give you a few new nifty ideas and push you in the right direction, if you only ask their advice. Meanwhile, you have a golden opportunity to further the cause through writing or public speaking.

**CANCER** (June 22 - July 22)

You may prefer to stay close to home this month as travel plans become too difficult or expensive. Don't despair; it is still possible to escape, relax and have a good time. Allow

yourself a few delights throughout the month; Life is too short and friends are far too dear. Gay Crabs can find plenty of reason to spoil themselves and others.

**LEO** (July 23 - Aug 23)

Leos have more than a little get up and go this month. You practically catapult yourself into center stage, come what may. The trouble is that all this you, you, you is not conducive to a we, we, we. It is more than likely that you will upset the applecart of love on you way to fame and fortune. Ever hear the old saying, "it's lonely at the top?"...Keep it in mind.

**VIRGO** (Aug 24 - Sept 23)

Virgos are one of the most self sacrificing signs of the zodiac and now you can really make some headway in your quest to make a difference out there. This month you seem to have almost boundless energy and can really help those in need.

**LIBRA** (Sept 24 - Oct 23)

Gay Libras are usually very chatty and the planets will now give you all the sociability that you could ever want. April brings people in all forms, shapes and sizes to your door. Friendships, relationships and even sexual exploits are all highlighted and can be enjoyed immensely. Can you handle all this company, dear? Try not to get names and faces confused.

**SCORPIO** (Oct 24 - Nov 22)

Career opportunities heat up and you may be able to make significant headway in your professional goals. If I know you, this is what you have been plotting, planning and working towards for quite a long time. You will also get some much needed support and encouragement from partners. Play the vulnerability game and let them take care of you for a change.

**SAGITTARIUS** (Nov 23 - Dec 21)

Oh, you can have fun now, but prepare for a new emphasis on work later this month. The good news is that your efforts on the job will pay off handsomely. In the meantime, allow your creative muse to run free and get out and have fun. It is also possible to gain a great deal from travel. April may be a busy month for both business and pleasure trips.

**CAPRICORN** (Dec 22 - Jan 20)

Communication will not go as well as you hope, so be very careful of what you say and how you say it. It seems to me that the planets are encouraging you to more fully examine why you may not be moving ahead in your personal goals as fast as you would like or deserve. Be proud of who you are. Maybe you are secretly undoing yourself. Think about it or ask an expert.

**AQUARIUS** (Jan 21 - Feb 18)

Relationships give us grounding and a sense of pride. Spend more time making partners feel special this month. You communicate well and can ask for what you need without seeming greedy. The only problem is in the area of finances. You may spend more than you have or squander money on foolishness. There is a lesson to be learned.

**PISCES** (Feb 19 - March 20)

Work and more work! You may feel a little like a rat on a treadmill this April. Don't worry, you can accomplish a great deal if you remain focused. Self confidence is lacking though. Ignore those nasty gremlins who always try to tear you down. You are terrific and must not allow yourself to get sidetracked with nonsense ideas. Confidence is the key to success.
