

## Study to focus on Aging GLBTs...

In order to learn more about special needs and concerns of aging GLBTs, Dr. Sara Brallier at Coastal Carolina University is conducting a study of the experiences of gays, lesbians, bisexuals and transgender individuals over the age of 50.

She is interested in stories about aging, interactions with medical and service providers, special problems of estate planning and relations with lovers and families.

To participate in this study, which will help health and service providers understand our community's needs, please contact Dr. Brallier at 843.349.2470 or email [brallier@coastal.edu](mailto:brallier@coastal.edu).

All information is kept strictly confidential.
