out in the stars

June 12-25

Thoughts spring into action as Mercury squares Mars. This is good and even productive if managed well, so resist the call to over-

think and plan. Allow serendipity to carry you forward. Don't boss the course. There is plenty of time for that later.

GEMINI (05.22-06.21) When is too much fun too, too much fun? Pink Twins are footloose and fancy free. Before you trip on your laces in the center of the public stage, stick closer to home for your jollies and feed your desire for cocooning. Put a bit more effort into making your home an entertainment epicenter. There is nothing better than chestnuts roasting on a open fire...except in June.

CANCER (06.22-07.23) Gay Crabs allow their intuition to run amok and might cross their cosmic wires. No matter — you still have your compelling gift of gab to get you out of any social jam. The real pothole in your path to glory is your overly-trusting nature with those who do not have your best interests at heart. Keep a few tricks up your sleeve — or at least on your frequent caller list.

LEO (07.24-08.23) What is it about compadres and relationships in general that has you so hot and bothered? Proud Lions want to surround themselves with friends and not just hangers-on. Take stock of those who you want to cozy up to and mozy around with. Do a little self-maintenance while your A-list grows and changes. By the end of this time period, you learn the full alphabet.

VIRGO (08.24-09.23) Queer Virgins glide to the top corporate rungs now. Go for the gold ring while you are at your commanding and commanding best. But, how do you look to the general masses? You could become too big for your own pants as you strut and fret upon the stage. Do you feel a draft as you go into your big scene? Just as well. You need a bit of perspective.

LIBRA (09.24-10.23) Gay Libras have big, big plans which may catapult them into the international spotlight. The world is filled with great possibilities. See how far your good looks and great ideas can take you. But, beware of quarks and cosmic potholes as you space travel. Plan accordingly so that you don't find yourself lost in another galaxy surrounded by giant squids.

SCORPIO (10.24-11.22) Sexy, proud Scorps are anxious to push their agendas, among other things, in many directions and in reckless abandon. So, join new social groups and reach out to acquaintances. You are able to make a dramatic entrance and charm the pants off anyone you want. Become a social gale wind and, if you are lucky, you could even become a popular blowhard.

SAGITTARIUS (11.23-12.22) Gay Archers feel in control of their professional destiny. You can jockey for the best position and easily ride the corporate sharks. But, don't expect a medal from all your hard work, at least not as partners are concerned. The harder and later you work, the more old, festering relationship issues come into the fore. Ahem. You *are* working late, aren't you?

CAPRICORN (12.23-01.20) What will it take to get you where you want to be in this world? I certainly don't know, but I sense that this time, the sky is the limit. Take the time to get back to the basics and attend to the nitty gritty details of any personal project. Hold off broadcasting your knowledge. You might stir up a hornets nest from any sticky, sweet comment. So, just plot quietly.

AQUARIUS (01.21-02.19) You look in the mirror and see yourself as sexy, brilliant and irresistible. That is great! Yet, you can become quite resistible if you can't modulate and mold your message to the right audience. Chill and find unique ways to tap into your creativity. Let the artistic energy surge, but don't dictate the exact flow of the output. Let others create the glow.

PISCES (02.20-03.20) Guppies find novel ways to push their domestic agenda and create a comfortable space for themselves. If you are ready to share the love, be sure that your best-laid come-on lines don't become scrambled. Relationships are there if you want them. Just be sure to let your actions speak louder and prouder than your words. Then fry a few eggs with a favorite special someone.

ARIES (03.21-04.20) Gay Rams can get bogged down with the bureaucracy at work and think that if they just show them how it is done, all will be well. In fact, showing the bosses that you can do the job better than most may only lead to more work. Change your game plan with more creative enterprises. Full body paint will do wonders for your outlook, not to mention your popularity.

TAURUS (04.21-05.21) Focus on dollars and common sense, queer Bull. Plug the leaks in your budget and strengthen your fiscal know-how. Don't turn into a complete tightwad. Some of your thriftier ideas can upend the applecart of fun and frolic and turn you into a savings drone. As soon as your money tree fills again, get back into the social buzz and make honey with your money. ::
