October 30 - November 12

Are we ready to vote for change or are we content with the status quo? Anything is possible this partisan November

when almost all planets swirl closely within half the sky. Remember, it is better to be recumbent than incumbent. Chill out.

**SCORPIO (10.24-11.22)** There is money to be made and proud Scorps are just the ones to make it. Focus on the bottom line and massage your assets until they expand. Do careful research, find your fiscal niche and take calculated risks as you build your empire. But remember — bears and bulls make money while pigs lose their shirts. Don't swing for the fences. Be content with singles — many of them.

**SAGITTARIUS (11.23-12.22)** This is one of the most fertile times of year for you, gay Archer. So, do not be lazy and do not procrastinate. Launch new projects, get your name on the marquee and market your brand in the right circles. The challenge will be how to concentrate on just one thing because you have so many projects running at once. How to choose? I don't know.

**CAPRICORN (12.23-01.20)** Look behind the scenes. Pink Caps are often content to let things take their own pace, even when there are hidden barriers and golden opportunities lurking in the shadows. No more. Use the month to uncover the golden nuggets and exploit them for your own personal benefit. There is plenty of time to be charitable — especially when you amass enough to donate.

**AQUARIUS (01.21-02.19)** Get with the program Aqueerius and stop playing hard to get. Friends worm their way into your heart and you can't help but feel friendly and part of the crowd. Join new organizations and expand your social set. You are usually the outsider and rabble rouser, but the upcoming holiday season can be warm, inclusive and even fun, if you allow it to be. Allow it to be.

**PISCES (02.20-03.20)** Make your best corporate move now and get to where you want to be professionally. Guppies are easy going and don't always feel comfortable rocking the boat for personal gain. But, now you are the commander of your ship and can steer it to any port of call you want. Will you eventually wash up on some distant shore? You can only hope!

**ARIES (03.21-04.20)** Proud Aries have that get up and go go go now which can lead them into all types of mischief. Good. Find your special voice and take it to the international streets. Think big, bold and brash. There is nothing to stop you and no one to dissuade you. Soon you could be luxuriating in gilet gravy. But, hopefully, that will not

make you the turkey, just the big bird.

**TAURUS (04.21-05.21)** Are you just another side of beef or are you a slice of prime tenderloin? Zesty queer Bulls sizzle and smoke and can show others how it is done...with flair. Ramp up your animal magnetism. You can attract anyone you desire including a few undesirables. You can be forgiven if "your eyes are too big for your stomach." That is what November is all about anyway.

**GEMINI (05.22-06.21)** It's all about connection. Pink Twins are focused on having the perfect relationship. Whether you are in one or not, use this time to see what you really want out of life and with whom you want to share it all. Then reassess. As the year winds down, there is something comforting about knowing that your direction is clear. Just don't lose the map!

**CANCER (06.22-07.23)** Is your job taking up more and more of your time? Don't despair, gay Crab. Even a truckload of nitpicky tasks can be dispatched easily now. Pour on the energy and see how much you can accomplish before the holiday season starts. By the end of the month you will not have the same oomph for work, which is understandable. Your timing will be perfect.

**LEO (07.24-08.23)** You have popularity plus that can be multiplied. Proud Lions become the ultimate party animals. Go out and have a roaring good time at every event you can, but don't waste all that charisma on wasteful (but fun) dalliances. Put some of that artistic impulse to good use in some creatively profitable projects. Holiday shopping season has just begun.

**VIRGO (08.24-09.23)** Plan more home-based activities and find ways to make your surroundings more comfortable and fun. One way to "find the calm" is to reach out to certain family members. Queer Virgins may feel that rifts cannot be bridged, but that is not correct. In fact, there may be windows of opportunity to not only repair frayed relationships, but make them strong. I said may be.

**LIBRA (09.24-10.23)** Proud Libras seem to know just what to say and when to say it now. So, why not open your mind to some new experiences and see what great thoughts pop out of your head. Expand your knowledge base, reach out to interesting folks and charm your way to the top of the social chain. Before you know it, you find yourself among the elite. So what else is new? ::
