Greensboro, N. C.

I have read the BULLETIN with interest. I commend the communication to our students, and I shall be very glad to help you in any way I can. Very cordially yours

JAMES P. DUDLEY

President Negro A. & T. College

I have read the release referred to in your letter, and I was especially struck with this sentence: "Only intelligent and self-respecting workers are employed, and the married men are given the preference. Colored leaders, in co-operation with the Company, have succeeded in almost eliminating drunkenness and other vices." This sentence indicates that you have a standard which guarantees character in your employees, and if this standard is maintained I have not

the least doubt that there are great things ahead for BADIN, both industrially and socially. Yours very sincerely

Indeed I was not aware that there existed such a place so near by. The early reputation of it was of quite a different nature, making the present condition there more noteworthy. Very truly yours
