Youthful Veterans of Sea and War Now Training Here as Aviation Cadets

Young veterans of the war, as well as of the sea, are 20-year-olds Walter E. Tobin (left), and Chester M. Lupushansky, 20th Battalion cadets from Newton, Mass., and Cleveland, O.

Both were in military service before Pearl Harbor, both have traveled 'round the world, both have been in historic battles with the Japs, and now each is seeking wings to carry the fight back to the enemy.

Tobin enlisted in the Navy in® 1939 as an apprentice seaman and loading refugee civilians aboard worked up to SK1c when he entered the V-5 program. Cruises have taken him more than 200,000 miles, and the points touched read like the table of contents in a world Atlas-Capetown, Bombay, Singapore, Batavia, Ceylon, Arabia, Suez, Australia, New Zealand, and Liverpool, just to mention a few.

He was going into Capetown when war came. His ship was bombed in the Sundra Straits, between Borneo and Java, but perhaps his greatest excitement came at Singapore just before its fall in late January, 1942. There, while the Japs attacked, Tobin aided in canal in mid-November.

ship for transportation to Ceylon. Several days later the city fell. Tobin was commended by his skipper for service under fire.

A Marine since early 1941, Lupushansky has traveled more than 40,000 miles during service as a first class gun trainer aboard one of the newer type battleships.

His ship accounted for 32 Jap planes during battle with the Jap fleet at Santa Cruz last Octoberthe same action in which the aircraft carrier Hornet was lost.

His most exciting action came in the great sea-air battle off Guadal-

"Other phases of the armed forces are doing the same thing to a degree," Miller continues. "Why even the Axis realizes the importance of good fighters being good swimmers. Only last week a report was made to the OWI of a radio broadcast from Tokyo which stated that the Japanese government has announced that all soldiers would be taught to swim. The statement was made two weeks after the Battle of the Bismarck Sea, in which 15,000 Japanese soldiers perished."

Coach Miller and Ensign Fick are getting a kick out of training cadets to take care of themselves against the Axis. Fick has been on numerous Olympic and good will teams, and Miller has served in various coaching capacities. Miller smiles when he mentions the 1932 Los Angeles Olympics. "That year," he says, "the United States scored 740 points while the entire Axis combination of Italy, Japan and Germany collected but 573. To me, that's a pretty good indication of how this war is going to turn out. Moreover, the same Japanese

ball club without Lefty 'Goofy' Gomez," Hassett replied when asked about the much publicized Yankee left hander. "He was a great guy, and I know the Yankees hated to part with him. At Boston you can bet your life that between Gomez and Manager Casey Stengel there'll be some great clowning exhibitions, and don't be surprised to see Gomez win some games if he once again gets his control."

Station Smoker Planned For Next Wednesday

The next station Smoker will be held this coming Wednesday in Memorial Hall starting at 1915, it was announced Thursday by Lieut. Frank L. Gillespie, USNR, assistant welfare and recreation officer.

Cadet specialty numbers will be included in the program, along with music by the Pre-Flight band and several new songs by the glee club which is reported exceptionally good at this point.

Olympic swimmers who competed at Berlin and Los Angeles are now swimming coaches for the Japanese army and navy."
